REDS PUSH KHARKOV DRIVE

New Offensive Moves Against Japs Looming

Guadalcanal Will Be Used As Base For New Operations In Pacific

ALL-OUT ASSAULT IS LIKELY SOON

By JOSEPH A. BORS
(I. N. S. Staff Correspondent)

WASHINGTON, Feb. 12.—Momentary intensification of America's land, sea and air offensive against the Japanese in the Pacific was indicated today by developments throughout the far-flung war zones.

Fresh offensive moves by American forces in the north and south Pacific areas was foreshadowed by U. S. seizure of all of Guadalcanal which Secretary of the Navy Knox said would provide a useful forward base in further attacks against the enemy.

America's future strategy in the war against Japan must remain a secret, but the continuing aerial blows against enemy bases indicated that U. S. forces were laying the groundwork for the all-out assaults that are expected to lead eventually to Tokyo.

First Major U. S. Victory

Following the crushing of all Japanese resistance on Guadalcanal the navy stated that the American victory marked the conclusion of the first major U. S. offensive of World War II.

Under the strategy intimated by Knox, Guadalcanal will be used as one of the key bases from which American forces will fan out against enemy installations now barring the way to Japan.

The secretary stressed the fact that naval policy never called for seizure of one island after another in a slow drive toward the enemy mainland. He explained that the popular conception of an "island to island campaign" was erroneous.

As Knox interpreted the American strategy islands will be used in the progress toward Japan but he intimated that attacks will be made only against key bases now held by the Japanese.

At present American efforts are concentrated on neutralizing the Japanese base at Munda, only 180 miles northwest of Guadalcanal. If American planes do not succeed in smashing this base, it may be necessary for U. S. forces to invade and seize this strategic central Solomons area.

Forty-Eight Hour Week Is Forecast Here By July First

BULLETIN
(International News Service)

PHILADELPHIA, Feb. 12.—Louis B. F. Raycroft, regional director of the War Manpower Commission, today confirmed reports that the 48-hour week will be made mandatory by July 1 in 24 Pennsylvania, New Jersey and Delaware cities.

The cities, as listed by Raycroft, are:

In Pennsylvania—Allentown, Lancaster, Pottstown, Philadelphia, Lebanon, York, Harrisburg, Aliquippa, Berwick, Chambersburg, Erie, **New Castle**, Pittsburgh, Reading, Washington and Williamsport.

In New Jersey—Long Branch, Jersey City, Morristown, Newark, Paterson and Perth Amboy.

In Delaware—Wilmington and New Castle.

Raycroft urged all business activities—war production, essential civilian and less essential—to adopt minimum 48-hour work weeks as rapidly as possible "to the extent that it will produce more effective utilization of manpower, make possible the release of workers for jobs in which they are needed or prevent or curtail additional hiring."

If labor gets tight before July 1 in any of the above mentioned cities, Raycroft asserted, the extended work week order probably will be made effective at an earlier date.

PITTSBURGH TO GET 65 NEW STREET CARS

(International News Service)

PITTSBURGH, Feb. 12.—The Pittsburgh Railways company had been authorized today by Federal court to purchase 65 new modern-type street cars at a cost of $18,000 each. The firm's trustees said the war production board and the state public utility commission had approved the proposed purchase. The cars will be delivered late this coming summer.

Allied Forces Make New Gain In New Guinea

Japanese Decisively Defeated By Australians In Wau Battle Area

NEARLY 1,000 JAPS REPORTED SLAIN

By LEE VAN ATTA
(I. N. S. Staff Correspondent)

UNITED NATIONS HEADQUARTERS IN AUSTRALIA, Feb. 12.—Decisive defeat of Japanese forces in the Wau area of northeast New Guinea by Australian jungle fighters was announced today in an official communique which disclosed that nearly 1,000 Nipponese had been slain and a much greater number wounded.

Allied Losses Light

Allied losses in the action which drove the Japs from Wau, 35 miles southwest of the large enemy base of Salamaua, were "relatively light", the communique from Gen. Douglas MacArthur's headquarters said.

The beaten Jap force which made a futile attempt to gain control of the Allied airfield at Wau is in full retreat toward Mubo, 10 miles below Salamaua.

The communique, announcing that approximately 200 more Japanese dead had been counted on the

Report Germany Having Hard Time Getting Sub Crews

(International News Service)

NEW YORK, Feb. 12.—Germany's naval chiefs are having "grave difficulties" in forming crews for submarine duty because of a recent heavy increase in U-boat sinkings by the Allies, the official Soviet news agency Tass reported today according to the O.W.I.

"An acute shortage not only of submarine officers but even of rank and file sailors is felt," the agency said in quoting information received through Stockholm.

"For this reason," Tass continued, "many officers and sailors of the Germany navy are now being transferred to submarines. In January, 80 sailors and five officers of the cruiser Prince Eugen were transferred to submarines."

PILGRIMAGE TO LINCOLN'S TOMB

(International News Service)

SPRINGFIELD, Ill., Feb. 12.—A nation locked in grim war for survival centered its tribute on this first shrine of Abraham Lincoln today as it observed the 134th anniversary of the martyred president's birth.

To the Lincoln tomb, which is located in Oak Ridge cemetery, went two annual pilgrimages to pay solemn homage to the Civil War president who placed liberty above all else.

The American Legion conducted its ninth annual pilgrimage to the Lincoln tomb and the Young Republican clubs of Illinois conducted their 11th.

R. A. F. Keeps Up Battle Against German U-Boats

Heavy Bombing Attack Is Made On Sub Plants At Wilhelmshaven

ATTACK FOLLOWS UP CHURCHILL'S SPEECH

(International News Service)

LONDON, Feb. 12.—The Nazi naval base of Wilhelmshaven, site of large submarine construction plants, was heavily raided by the Royal Air Force last night, the air ministry announced today.

The bombardment was the first against Wilhelmshaven since United States bombers blasted that base along with Essen on Jan. 27 in the initial American raid on Germany and the first large-scale daylight assault against the Reich.

Three bombers were lost in the raid.

War On U-Boats

The attack was in line with Prime Minister Winston Churchill's declaration yesterday that President Roosevelt, he and the allied commanders who conferred at Casablanca had given first priority to warfare against the menace of Axis U-boats.

A series of tremendous assaults have been concentrated in recent weeks on Axis submarine building plants. Besides Wilhelmshaven and Essen, enemy U-boat establishments at Lorient, France; Copenhagen, Denmark, and Spezia, Italy, have been blasted. The most severely battered base has been that at Lorient where the Nazis have easy access into the Atlantic.

Other Attacks

Attacks on the "northern coastal area" and also in western Germany were acknowledged by the German radio.

The Nazi broadcast called the bombardment of the western Reich a "nuisance raid" and claimed that two of the British craft had been shot down.

The night attack followed a daylight raid by British-manned Boston bombers against occupied Holland and France. The Bostons attacked railroad yards at Roosendaal, Holland, and Serqueux, northern France. A factory at Caen, France, also was blasted during the afternoon.

BOARD TWO MEN LEAVE FOR ERIE

First Contingent Of Selectees To Go By Bus For Army Induction

Men summoned for examination by Selective Service Board Two of the city went to Erie this morning, the first group to be transported by bus under a recent order sent out from the state office, and half of the men were three-quarters of an hour late in getting away to their destination, due to a mixup in orders on the part of the bus drivers.

The buses had been ordered to report to the Y.M.C.A. building on the Diamond at 7:30 o'clock this morning, but at that hour only one bus was present. They were scheduled to leave at 8 o'clock, and when that hour arrived, there was still only one bus. Finally Mrs. Margaret Hogan, chief clerk of the board, got in touch with the bus terminal and found that two of the buses had reported there. The last group got away at 8:55 o'clock being close to an hour late. Three buses had been sent here to take the men to Erie, but only two buses were needed.

The contingent this morning represented half of the call by Local Board Two of the city. The others will leave at a later date. Men from City Board One and County Board Two will leave during the next two weeks.

Report British Eighth Army 65 Miles In Tunisia

Rommel Has Established 60 Mile Front To Combat Advancing British

NAZIS IN DESPERATE DELAYING ACTION

By CHARLES A. SMITH
(I. N. S. Staff Correspondent)

LONDON, Feb. 12.—The British Eighth Army, plunging westward through the Tunisian marshlands below the Mediterranean coast, was reported today to have penetrated 65 miles inside of the French protectorate.

A Reuter dispatch from Cairo said that Nazi General Field Marshal Edwin Rommel had established a 60-mile line in front of the advancing British from Ras Ajir, east of Ben Gardane on the coast, and extending southwestward to Foum Tatahouine.

Ras Ajir on the coast road is only about eight miles inside the frontier from Tripolitania but Foum Tatahouine is situated 65 miles from the border.

South Of Mareth

Inland Foum Tatahouine is only 45 miles south of Mareth and a British advance in this direction clearly indicates a drive to outflank Rommel's "Little Maginot" Mareth line in accordance with a pronouncement by Gen. Sir Harold R. L. G. Alexander, newly appointed deputy commander to American Gen. Dwight D. Eisenhower, that the fortified front could be skirted.

Front dispatches from Tunisia said that Rommel is throwing in tanks as well as artillery units along the battle line in a desperate effort to delay the advance of the Eighth Army.

Flare-up Reported

A new flare-up in activity also was reported on the northeast front in Tunisia as the stage was set for the start of the forthcoming Allied drive to rid North Africa completely of Axis forces. British and French troops, according to a Reuter correspondent, have launched a series of attacks in the Mateur area, 20 miles southwest of the naval base of Bizerte, where they scored an eight mile advance.

Rommel, offering the first real opposition to Gen. Sir Bernard L. Montgomery's army since he was driven from Egypt and all the way across Libya, is challenging the

OVER HUNDRED GIRLS REPORT TO JUNIOR R. O. T. C.

One of the first girls' high school junior R. O. T. C.'s to be organized in the United States met for its initial drill session in the gymnasium of the senior high school on Thursday evening when 118 members and alumnae members of the Girls Athletic club of the senior high school were present for drill work. Instruction was given by Captain Lester McClelland of the State Guard Company B, and Miss Margaret Fischer, girls' athletic director and supervisor of the corps.

Plans are that three platoons of 36 girls each will meet for practice every Thursday evening. Next week permanent assignment to platoons will be made, and at the conclusion of three more drill sessions, corporals and sergeants will be chosen by the commanding officer, one each to each squad. By showing ability, it will be possible for the girls to work up thorugh the ranks to commission grade.

Thursday evening's practice, conducted by Captain McClelland and Miss Fischer, included a lesson in saluting, military usages and etiquette and marching commands.

RETURN FROM GAS HEARING

Early Decision Is Promised Western Pennsylvania By Ickes

Roger Jewett, executive vice president of the Greater New Castle Association, and Charles F. Morrow, vice president of the New Castle Motor club, arrived home today from Washington, D. C., where they represented New Castle at the gasoline hearing held with Petroleum Co-Ordinator Harold L. Ickes and Price Administrator Prentiss M. Brown. The purpose of the hearing was to induce the co-ordinator and price administrator to include western Pennsylvania in area two, to permit four gallons of gasoline per ration coupon.

Senator Joseph F. Guffey presented the appeal of the western Pennsylvania counties and urged that this section be put into area two. With him were Senator James J. Davis and a number of congressmen, including Congressman Louis E. Graham from this district.

No decision was announced after the hearing but Mr. Ickes promised an early answer.

New Air Raids By U. S. Bombers

Central Solomons Bombed In Continuation Of Aerial Offensive

By JOSEPH A. BORS
(I. N. S. Staff Correspondent)

WASHINGTON, Feb. 12.—The navy reported today that American planes were continuing their aerial offensive against Japanese positions in the central Solomons and that in two attacks on Feb. 11 they started fires in the target areas.

The raids were carried out by twin engined Martin bombers escorted by speedy Airacobra and Lightning fighter planes.

Fires were started in the target area at Munda, nearest Japanese air base to Guadalcanal. In a later raid a large fire was started and one enemy plane shot down in an assault on Kolombangara island, a supporting base for Munda.

DIONNE QUINTS COMING TO U. S.

(International News Service)

TORONTO, Ont., Feb. 12.—The Dionne quintuplets today were reported eagerly awaiting their forthcoming visit to the United States, where they will sponsor five cargo ships for the British Empire.

The "quint fleet" will be launched at Superior, Wis., on May 9, and each ship will bear the name of one of the popular sisters from Callander, Ont. The occasion will mark their first visit to the United States.

Premier Gordon Conant announced the planned visit in the Ontario legislature yesterday. He declared that the invitation had come from Secretary of State Cordell Hull.

For the quints, who will be nine years old on May 28th, the visit promises the longest trip of their lives.

Employment Office Gets New Manager

Assigned to the local office of the United States Employment bureau, Manager George Walter took over on Thursday following his appointment to the job by A. C. Scott, head of the district office in Pittsburgh.

Mr. Walter, who was previously located in the Butler, Pa., office, comes here to fill the vacancy left by J. L. Connely, former manager, who received a commission as lieutenant (jg) in the United States Naval Reserve.

The new employment office manager has been connected with the United States Employment Bureau for the past five years.

Council met informally this morning to discuss proposed insurance to guard the city against liability for damages during 1943. Bids were opened some time ago out no contracts were awarded pending a conference which got under way today.

Three States To Join Daylight Raid Test

(International News Service)

HARRISBURG, Feb. 12.—Pennsylvania will stage a joint daylight air raid with Maryland and Virginia on Feb. 17 when the army's new unified warning system will go into effect, the state defense council announced today.

"The purpose of this drill will be to accustom everyone to the new system of alarms, so that civilian defense workers, factories, transportation officials and the general public may learn without delay what is required of them, explained acting Executive Director A. Boyd Hamilton.

The drill, he said, will be held simultaneously "sometime after 10 a. m." in the three states through arrangement made by the third civilian defense region headquarters in Baltimore.

The test will be the most extensive in which the state has participated, the only other joint drill being with New Jersey last August.

Under the new system, the sequence of audible alarms is: (1) a blue warning—steady blast lasting approximately two minutes; (2) a red warning—a series of short or wavering blasts for two minutes, and (3) a second blue warning identical with the first.

The "all-clear" signal following the test will be broadcast over Philadelphia and Pittsburgh radio stations and will also be announced by air raid wardens. The length of the test was not divulged.

COUNTY TAX MILLAGE CUT

Total County Levy For Year Will Be Two And Half Mills

Reducing the 1942 county tax levy by a half mill, the county commissioners today announced the levy for general purposes for 1943 will be two mills instead of two and a half. The levy for the institutional fund has not been formally set but will remain at one half mill, making the total county levy for the year two and a half, instead of three mills. The new levy will be the lowest in the past 40 years.

After the prescribed 20 days of public view the budget for the year has been adopted by the county commissioners. The general budget on view was figured at a two and a half mill levy. A revision in the total estimated revenue will be made and some reductions made in the estimated expenditures, with the two mill levy.

A number of reasons prompted the reduction in the county millage. An increased assessed valuation indicates a higher revenue, some expenditures were estimated higher than was thought necessary and the balance in the county treasury to start the new year is a heavy one.

Report General Rommel Wounded

(International News Service)

LONDON, Feb. 12.—Nazi General Field Marshal Erwin Rommel, commander of the Nazi Afrika Korps which now has taken up positions in Tunisia, was wounded in a recent heavy American raid on the port of Gabes, the London Evening Star said today.

The newspaper, which said its information came from a "reliable source," added that Rommel now is in a hospital in Tunis.

SWEDISH SHIP SHOOTS DOWN GERMAN SEAPLANE

(International News Service)

STOCKHOLM, Feb. 12.—Gunfire from a Swedish warship shot down a German seaplane off the south coast of Sweden near the town of Karlshamn, it was officially announced today.

The German crew of seven was rescued uninjured.

When the Nazi plane appeared over Swedish territorial waters the warship fired warning shots. The plane continued on its course and the ship opened fire.

CLOTHES HOARDING BEING CONDEMNED

(International News Service)

WASHINGTON, Feb. 12.—Donald M. Nelson, chairman of the War Production board, today condemned clothes hoarding as "really selfish" as he appealed to civilian consumers to halt unnecessary "runs" on supplies.

The W.P.B. chief reiterated that current stocks are "in good shape" and declared that there are "no plans now for rationing clothes."

"Runs on stores are the surest way to bring about rationing," he warned. "I hope they will not continue. Hoarding of clothes is really selfish."

Kharkov Fall To Red Forces Seems Nearing

Important German-Held Rail Line In Area Is Taken By Russians

ROSTOV DRIVE MAKES PROGRESS

By NATALIA RENE
(I. N. S. Staff Correspondent)

MOSCOW, Feb. 12.—The Soviet high command today announced severance of an important German-held rail line in the Chuguyev-Lozovaya area south of the Ukraine steel center of Kharkov against which the Red army is intensifying its assaults.

Rupture of this communication cut off the Nazi forces at Kharkov from German armies threatened with encirclement in the Donetz Basin.

The drive which cut the rail line, the noon communique said, resulted in the rout of an elite guard "SS" regiment of "Das Reich" division which was transferred from France in mid-January in a desperate bid by Hitler to check the surging Soviet winter offensive.

The elite guard troopers were supported by 60 tanks, 35 of which were destroyed.

On another sector of the front below Kharkov Cossack cavalrymen routed two companies of German infantry.

Offensive Moves Forward

The offensive in this area moved steadily forward following the fall of the rail center of Lozovaya, 70 miles south of Kharkov, announced early today in a special communique.

Between Kharkov and captured Kursk to the north the Red army occupied several more localities as they hammered persistently at the crumbling Nazi defense line.

One scout detachment penetrated into German positions and routed a battalion.

The drive against the Caucasus gateway city of Rostov was pressed from thesouth with new artillery assaults which were said by the high command to have ousted the Germans from strong positions. Many pillboxes and blockhouses were seized.

Closing In On Rostov

Another Soviet column was closing in on Rostov from the direction of Novocherkassk, 25 miles to the northeast. Several localities were liberated in this area, large quantities of war material seized and prisoners taken.

In the Kramatorsk area, 110

COUNTER-ATTACKS OF JAPS REPULSED

(International News Service)

NEW DELHI, Feb. 12.—Sharp Japanese counter-attacks against British positions near Donbaik and Rathedaung in Burma have been repulsed with severe losses, the India command announced today.

An official communique said the Japanese had reinforced this area before they launched their counter-attacks, which failed completely.

In the Chin Hills, Nipponese troops recently attacked British forward posts. After a 24-hour battle, the enemy, having suffered "relatively large casualties," according to the communique withdrew.

Accused Cook Will Face Jury

Man Accused Of Murder Of Woman On Train Will Be Arraigned

OREGON GRAND JURY GETS CASE

(International News Service)

ALBANY, Ore., Feb. 12.—Robert L. Folkes, 20, train cook accused of the "lower 13" murder of a young navy ensign's bride, will face a county grand jury next Thursday at Albany, it was announced today by District Attorney Harlow Weinrick.

Folkes is charged with the first degree murder of Mrs. Martha James, 21, whose throat was cut January 23 as she lay in the berth of a Southern Pacific train.

The young Negro was arrested at Los Angeles, where he confessed, then repudiated the slaying, and later admitted it again. Brought to Albany, he again signed a confession in Weinrick's presence.

Folkes still awaits preliminary arraignment. A hearing scheduled for the Albany justice court was postponed early this month when the suspect asked for time to consult with counsel.

CONGRESS WILL GET POWER BACK

So Declares Floor Leader Of Republicans In Present Congress Body

(International News Service)

COLUMBUS, O. Feb. 12.—When the war is over, the Republicans in Congress will make certain that the powers given to Washington "bureaucrats" are returned to Congress, Joseph W. Martin, Jr., Republican floor leader in the National House of Representatives, promised today.

Speaking at a Lincoln-McKinley-day banquet in Columbus, Martin asserted that "the 'rubber stamp' days are over, and, if I am any judge of the sentiments of the American people, they are profoundly glad of it."

Republicans in Congress, Martin said, will not wait until the end of the war, however, to check bureaucracy.

"We will carefully scrutinize the operations of these bureaucrats and the appropriations which they request," Martin asserted. "We will keep them in bounds."

miles northwest of Rostov the Russians repelled several German counter-attacks. On one sector they routed a motorized unit and killed 400 Nazis.

(Stockholm dispatches said the German garrison of Kharkov had begun a retreat westward after failing to stem the Russian offensive. Soviet Vanguards were said to have driven to positions within six miles of the city.)

Surrender of Kharkov appeared inevitable after Red army columns swept westward in a 35-mile advance and occupied Lozovaya, 70 miles south of Kharkov. This cut Kharkov's communications with Axis armies to the south and west.

Lozovaya dominates the north-south rail line to the Crimea, and the east-west line from Voroshilovgrad to Kiev.

Rosenberger Is Invited To Share State's Triumph

Ross D. Rosenberger, salvage chairman for the Lawrence County Council of Defense, has received an invitation to be present in Harrisburg February 25 when Governor Edward Martin will receive a plaque for the state's outstanding scrap collection record. Governor Martin as state chairman of the council of defense will receive it for the state. The award comes from the war production board.

At the same time, the quota of scrap collection for the state in the drive which will end June 30 was announced as 1,635,000 tons of scrap.

Lawrence county's quota has not been announced but the quota for 32 Western Pennsylvania counties has been set at 891,000 tons. Basing the quota upon the population of the state, Lawrence county's quota would be approximately 16,350 tons.

President Honors Lincoln's Memory

(International News Service)

WASHINGTON, Feb. 12.—President Roosevelt made a short trip to the banks of the Potomac river today to lay a wreath at the memorial to Abraham Lincoln on the occasion of the Emancipator's birthday anniversary.

Accompanying the President were Mrs. Roosevelt, his military and naval aides, Rear Admiral Wilson Brown and Maj. Gen. Edwin Watson, and a personal friend, Harry Hooker of New York.

The wreath, consisting of palm sprays embellished with red, white, and blue ribboning was placed at the foot of the statue of Lincoln by a marine sergeant and an army officer.

A number of Japanese also were taken prisoner in the battle.

The only other action in New Guinea reported in today's communique was an attack by an Allied medium bomber against Jap positions at the mouth of the Waria river on the north coast. The positions were plastered with both bombs and machine gun fire.

Another heavy bomber conducted a two-hour harassing attack over the Rabaul base on New Britain Island under cover of darkness. The bomber started fires near the Lakuami airdrome.

A Jap submarine, it was disclosed, torpedoed and sank an Allied merchant vessel off the east coast of Australia. All aboard were rescued.

Sweater-Clad Women Fired At War Plant

Twenty-Two Others Strike In Protest After 53 Lose Jobs From Oomph Garb

(International News Service)

NEW YORK, Feb. 12.—The sweater, short cut to stardom for many a glamour girl, became a cause celebre among thousands of women war workers today.

The question was simple, "will they wear them or won't they?"

The controversy broke out at the Sikorsky Aircraft company of Bridgeport, Conn., when 53 women employes were fired yesterday for wearing sweaters. Twenty-two other women joined them in a protest strike. All were back at work today wearing jackets—under protest—but the sweater question still raged.

Not even the war factories, it appeared, could agree on what an oomph ensemble will or won't do for American women, men and machines.

Women workers—and officials—of the Grumann Aircraft Engineering Co. plant in Beth Page L. I., were enthusiastic about sweaters.

"We encourage them because of the safety angle," officials said.

Sweaters drew disapproving frowns from officials of the Curtiss-Wright Corp.

"Sweaters hold up the assembly line," an executive declared.

Even glamour girl May Martin, who has appeared on many a morale building show at army camps, was drawn into the controversy. As she arrived from Hollywood, the singing star said:

"I should think girls would be allowed to wear what they like so long as it doesn't interfere with production. It's much easier to roll up the sleeves of a sweater than of a jacket."

QUISLINGS IN NORWAY SEEK TO QUIT NAZIS

By STEN HEDMAN
(I. N. S. Staff Correspondent)

STOCKHOLM, Feb. 12.—German defeats in Russia and North Africa are giving Norwegian Quislings sleepless nights and some are trying vainly to quit the Nazi party, a Norwegian refugee told International News Service today.

Many Quislings ar drowning their sorrows in liquor, but this form of escape has been small solace to them.

Those who have tried or are trying to drop out of the Nazi party ranks have found this course of action virtually impossible. The avenue of retreat has been closed.

Meanwhile, however, the Norwegian population suffers indescribable hardships.

According to I.N.S.'s informant, the food situation in Oslo is particularly bad. It is impossible to buy butter, sugar, eggs, vegetables or fruit in the Norwegian capital. A pint of milk can be purchased, but it usually turns out to be merely diluted water.

Twice weekly, long lines of Norwegians wait for their rations of potatoes and fish, but most of them wait in vain, for there just isn't enough to go around. The dark Norwegian bread is so poorly baked that it crumbles to pieces and must be eaten with a spoon.

Meat is so scarce that food coupons are of little value. Festival dinners usually consist of herring and potatoes.

HOME IS BURNED IN SEVENTH WARD

Blaze Originating From Overheated Stove Causes Loss Of $2,000

Fire, which started from an overheated stove in the downstairs, virtually destroyed a six-room frame house at 612 West Ashland avenue, at 9:20 o'clock this morning. The home, which is owned by Frank R. McCauley, of Sharon, was occupied by A. K. Barnett and family.

When Seventh ward and Central fire companies arrived at the scene in response to an alarm from box 74, the blaze had gained such headway that it was impossible to have the structure, only a small portion of the house being saved from total destruction, along with its contents.

DON'T FLY KITES NEAR POWER LINES

Don't fly kites near electric wires. This was the advice of the Pennsylvania Power company today.

The warning pointed out that accident is likely to happen to both the youth and the wire.

Several days ago a 4,000 volt line was burned out in the Seventh ward, causing power interruption.

Linemen discovered a piece of Christmas string contained a metal strand causing the interruption.

REPORT BRITISH EIGHTH ARMY 65 MILES IN TUNISIA

(Continued From Page One)

British advance just east of the Axis coastal base of Ben Gardane, 20 miles inside Tunisia.

Fighting developed along the marshy coast for possession of roadways leading into Ben Gardane and to the northeast beyond. Rommel apparently has chosen to fight a delaying action on this sector with the full knowledge that once having reached Ben Gardane the going will be easier for the British along better roads.

Training Planes Are Destroyed By Blaze In Meadville Hangar

(Special To The News)

MEADVILLE, Pa., Feb. 12.—Fire raged through the hangar at Port Meadville airport, three miles from here, and destroyed nine training planes as well as the building, Thursday. Damage was estimated at $100,000.

Robert Lewis, of Meadville, a hangar attendant, attempted to carry a can of gasoline out of the blaze and was seriously burned.

The structure was a mass of flames within 10 or 15 minutes of the time it first broke out. Elwood Holt, manager of the airport, said the fire was started by gasoline supplies near a coal stove igniting.

Seven of the 16 training ships were saved.

OLD TIME IRON IS IN SERVICE

People are turning again to accessories they used a long time ago because of the storage of more up-to-date equipment to be used in the household it was reported today at the Pennsylvania Power company.

One woman took an iron, made in 1905 to the company for reservicing.

It was only necessary to attach a new cord and the iron works well, it was reported.

"I'll Look It Up!"

Over the wire to a busy "Information" operator came a request for the telephone number of a certain person. But the operator could find no name in her records like the one requested, so she asked the subscriber to spell it.

"Just a minute," came the answer, "while I look it up in the telephone book"!

Almost half of all the calls made to "Information" are for numbers which *are listed* in the directory. These unnecessary calls waste the time of 6,000 Bell System operators all over the country, and they tie up telephone facilities which are urgently needed to handle essential war-time calls.

Please use your directory *first*—before you call "Information." Telephone service should not be wasted in war-time. The Bell Telephone Company of Pennsylvania.

VICTORY IN PACIFIC

THE AMERICAN VICTORY on Guadalcanal, from which all but a few nuisance nests of Japs have been driven, is the first major defeat for Japan in the war in the Pacific. It also clears the stage for the next offensive move by American forces.

The Japs paid a heavy price for their brashness in invading the Solomons, and all they gained was a little time to fortify other areas. When the real drive starts in the Southwest Pacific, these fortifications will avail them about as much as did Hitler's defenses in Russia, on which a year and a half of frantic effort was expanded, but which are crumbling like cardboard works before the wrath of the Reds.

In the Solomons action, Japan lost 75,000 men, 150 ships and more than 1,000 airplanes. These are losses that cannot be replaced in a day. Some of Japan's best jungle fighters were wiped out on Guadalcanal, and the loss in ships and planes is as severe a blow to Tokyo as would be the loss of a thousand ships and ten thousand planes to America.

The experience gained by American forces in vanquishing the Japs in the Solomons will be of great advantage in the next big push in the Pacific. American commanders have learned how the Jap fights and what it takes to cut him down. The knowledge will be applied on a larger scale before long, and when it is so applied, funeral dirges may become the hit music of Tokyo as it has of Berlin.

Where American armed might will strike the Jap next is known only to the army high command, but there is a distinct welter of predictions that it will be on a larger front and nearer Tokyo rather than on isolated island bases. Island-to-island campaigns may be engaged in, but more in the nature of diversionary actions while preparations go forward to smite Japan at a more vital spot and thus shorten the war.

THIS IS A MAN

It is difficult to define the qualities which conspire in the making of a great man. Even though his greatness be beyond question, as is the greatness of Abraham Lincoln, it is compounded of familiar attributes and abilities which may be discovered in the characters of innumerable lesser men.

Lincoln is revered for his simplicity and sincerity, his tolerance and patience of purpose, his strength of will and gentleness of understanding, his courage and kindliness. For all these virtues, which may be marked in many men, and for much more.

Another man, whose greatness none can doubt and few can define, wrote of the alchemy of character which sets a man apart from his fellows, though he shares their common humanity. Nobody has bettered what Shakespeare said of Brutus and might have said of Lincoln. "His life was gentle; and the elements so mixed in him that nature might stand up and say to all the world, this was a man!"

"This was a man," which admits that there is no higher title that greatness can deserve. It confesses, too, that the vast majority of mankind falls short of the measure of a man.

Lonely figures tower above the multitude of little men and the passing of the years makes their loneliness more evident. Few names in human history can share the honors that the world accords to Abraham Lincoln. Strangely, his birth and breeding, his studies and struggles and the times of crisis which called him to his country's service created this "greatest American," from the stuff of which all men are made.

There is no other reason why Lincoln is loved, no less than he is honored. This was no stranger to the common lot of humanity, no extraordinary and incomprehensible genius. This was a man.

BOTTLES

One result of war, of rationing and of varied official orders to citizens is to remind Americans that modern life is a complex business. It has been learned that rubber grows on plantations which can be captured, that tin is mined in areas that can be conquered, that fuel oil and gasoline were transported in ships that can be sunk, that there's a limit to what railroads can haul, that even the enormous food production of the United States is not inexhaustible. And now we learn about milk bottles.

It is disclosed that 25,000,000 glass bottles are required each day to deliver milk to the American people. It is revealed that in New York's great metropolitan area alone 50,000,000 bottles a year are lost, or at least are never returned to the dealer. So the agriculture department orders a deposit per bottle to be paid on home-delivered milk, with appropriate regulations for other categories, in the hope of returning bottles to circulation and thus making an enormous saving in labor, materials and transportation.

What consumers have been doing with unreturned milk bottles is not of record. The annual loss to milk companies runs into millions, a loss that is now of interest to everyone because replacements subtract from the nation's total war effort.

America's has been a wasteful civilization. If our war experience teaches us to take the comforts and conveniences of modern life less as a matter of course and more as a matter of cost, we shall have learned a valuable lesson in husbanding those gifts which nature and man's effort have hitherto provided in such profusion.

In predicting the size of the prospective national debt, newspapers now give the figures as 200 billion, 300 billion, etc., thus conserving zeros.

Chief of the Italian general staff has resigned, feeling perhaps that it would be more fitting for Mussolini to do the surrendering.

The mystifying thing about the statement by statisticians that the average American strikes 9¼ matches per day is the fact that he borrows at least a dozen.

Bible Thought For Today

Ye have heard that it was said by them of old time, Thou shalt not kill; and whosoever shall kill shall be in danger of the judgment. —Matthew 5:21.

Hints On Etiquette

When you are riding on a train or bus, do not put your feet on the seat in front of you where other people must later sit. If there is room and you want to be comfortable on two seats, at least put a paper or handkerchief on the seat opposite you before placing your feet.

The Parent Problem

By Garry C. Myers, Ph. D.

FORTITUDE BEST HELP FOR CHILD IN WARTIME

Often in public forums, or in letters from parents, I am asked what should be said to the child about the war. Always I reply that we are foolish to act as if there were no war, since the youngster old enough to mingle with playmates will hear all sorts of things from them and the radio.

The child from about three to ten asks many questions. How we act, speak and answer these questions tells more than what we say. Our problem first is to work on ourselves so as to face realities with fortitude.

Out of England have come stories of mothers who have tried to keep from telling the child of father going into battle, taken prisoner, even killed, by saying he is "In North England," in a "hospital," or the like. One British mother, for example, told her five-year-old that his father was in Scotland, though he actually had been killed. This child seeing the mother's unhappiness, announced one day, "I know all about my father. He has been killed. You have told me yourself." The mother really had.

Don't Hide Truth

Hiding or denying fear or sorrow only make them grow. Talking about them enough to get them off the chest helps us face them better. Of course, there is a point beyond which there can be too much talking, for one's self and others, especially for the young child. After the violent inner pressure is relieved we need to turn our attention and that of the child to other matters.

With this reservation, I could heartily agree with Dr. Dorothy Baruch. In her recent book, "You, Your Child and War," she says: "There is no trouble too great to let children in on. None exist that can not be reduced to their own terms and interpreted in words that they can understand. But when one's fears are pervasive, when they haunt us, then our feelings become too grave for children to bear, whether we talk about them or not. The task then which confronts us is to take ourselves in hand, get help if necessary and do something to reduce the weight of the burden that torments us. Remember, it isn't only what happens to us; it's the way we take it." Surely Dr. Baruch is right when she says, "Getting fear off the chests can help our children live more courageously through the war."

It might help us and our teenage children to remind ourselves and them that men in the armed forces have better health, as a rule, than in civilian life.

My special bulletin on "Fears may be had by writing me at 235 East 45th street, New York City enclosing a self-addressed envelope with a three-cent stamp on it.

Solving Parent Problems

Would it not be a good plan for the child to wear a badge with a star on it to indicate he has a big brother or father in the service?

A. An excellent idea. This should reduce sorrow, fear and anxiety in him and cultivate wholesome patriotism.

What Noted People Say

(International News Service)

CHICAGO—Paul V. McNutt, war manpower commissioner: "The expansion of the war production program and the increase in the strength of the armed forces will require the services of an additional 6,400,000 persons during 1943."

WASHINGTON—Sen. Tydings (D) Md., on the lend-lease program: "While it may not be advisable to make such reports public for military reasons, I can see no reason why the appropriation committees of both Houses of Congress would not be informed at least every month on what has been done, why it was done and where it was done."

NEW YORK—William H. Davis chairman war labor board: "The test of America is going to be how it can continue to produce and produce enough to keep people from want and from fear . . . it can be done by intelligent co-operation."

WASHINGTON—Sen. Byrd, chairman joint committee on reduction of non-essential federal expenditures, commenting on publication of OWI magazine "Victory": "We also understand that there are numerous other government publications afoot or in prospect and we intend to have a look into the entire propaganda field to see just what is being done and what is being spent."

Just Folks

By EDGAR A. GUEST

PURPOSE

Now at each other's throats we fly
And scarcely know the reason why
Except, for ages men have fought
To keep alive on gentle thought.

It seems that some were born to cling
To what men call "the decent thing."
They gladly self forsake to fight
For what they think to be the right.

Yet strangely from the ranks men breed
Come others, slaves to lust and greed.
They put their faith in cannonade
And thus it is that war is made.

And thus it is that brave men die
And give no other reason why
Than this: that evil's gathered might
Shall never triumph over right.

HINTS AND DINTS

Sun sets tonight 6:31. Sun rises tomorrow 7:57.

Some of us have seen the time when we were given one pair of boots a year in the fall and told if they did not last all winter we would be out of anything for our feet.

Everybody who should pay taxes should be made to pay them. Many never pay any taxes. It's worth a lot to live in this great country.

Clairvoyant: "Anyone else wish to ask a question?"

Jones: "Why does my wife close her eyes when I kiss her?"

Clairvoyant: "Did you ever look at yourself in the glass?"

Our men in the army should be well fed, no matter how much it costs or how little it leaves those who are not in the army.

"Let me see," said the minister, who was filling out the marriage certificate, and had forgotten the date, "this is the fifth, is it not?"

"No sir," said the bride, with some indignation, "This is only my third."

The guy who keeps his ear to the ground knows there's something in the air.

Some people will not notice any difference in the coffee they drink now than some they have been used to. Tastes like water anyhow.

Hubby comes hiccoughing home and meets someone on the steps.

John: "Who are you?"

Wife: "I'm the devil."

John: "Glad to meet you. I married your sister."

You can crush people with the weight of the tongue.

Some people will be glad enough to pay the $10 state tax on their cars if the car will run.

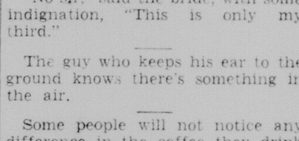
If you keep your lips from slips, five things observe with care:

Of what you speak—
To whom you speak—
And how—
And when—
And where.

We know a gal who does not select her husband's neckties, but she does select the whisky he drinks. She does not wear neckties.

"Why don't you ask your husband's advice in this matter?"

"I intend to as soon as I decide what I am going to do."



Old one up-to-date. "It looks like rain," said the boarding house lady. "Yes," said the boarder, "but it smells a little like coffee."

Half the world never did know how the other half lived and this is no time for suspicions. We shouldn't give too much thought to rumors of shenanigans.

When the war ends, before we have the kind of peace good people are dreaming of, we think there will be a reunion of ham and eggs.

Lady "Don't be afraid of the dog. He shows his teeth but his tail is wagging."

Tramp: "Thank you, mum, but I don't know which end to believe."

It will be interesting to see how some gals will get along with three pairs of shoes a year. Some could get along for several years with the number they have now.

There are some people who would rather be cussed than not be noticed at all. Some would even thank the cussers.

There are some terrible second-hand typewriters in this country. The government should have an expert to see what it gets when it is collecting that kind.

There are two things that cannot be controlled. One is prices and the other is people.

The new nickels will not have much nickle in them, but they will still be a nickel that will fit into all coin operated machines.

The war, somebody remarks, has changed folks' way of living. Yes and the tire and gasoline rationing ought to change their ways of dying.

DON'T BE A DEFEATIST

A defeatist attitude toward the future of one's country is punishable in some warring nations. And quite as deserving of discipline is the defeatist in social life, who is usually punished by being shunned by his friends and by ending his days in lonely desolation.

According to the propaganda which he disseminates, the youths of today are degenerate and dissipated; our debutantes are unfit to become wives and mothers; there is no use in preparing for a specialty or a profession because there are to be few if any new jobs; there is no use in having children, for they will be cannon fodder. Even the few who do find employment will be unable to make fortunes honestly, because no one ever gets ahead except through crookedness. And, as for career girls—they have no future unless they succumb to their employers. There is no use in buying property because real estate is sure to fall in value and it is idiotic to purchase securities because the stock market is certain to crash.

The best cure for social defeatism is a blue pill at night, a large fizzy drink next morning, followed by a diet low in sweets and meats and a daily workout in a gymnasium. For, like extreme piety, it is a disease of the liver.

Have all the children your heart desires, for their future is the best ever, and buy United States war bonds. Their future is as sound as the United States government.

Question: Is it considered rude for a man to suggest to his partner that they sit down when he feels that he has danced sufficiently and the orchestra continues playing?

JIM.

Answer: This suggestion should come from the woman and not from her partner. It is always the privilege of the woman and not the man to complain of fatigue and suggest "sitting out" the rest of the dance. Her partner should continue until either she or the music stops, unless, of course, he is ill and cannot go on.

WEALTH

In all the present excitement about wealth, and its division, there is one cardinal fact which many of us are prone to overlook. Actually, there is no such thing as private wealth. Unused, it belongs to no one. Used—it belongs to everyone.

Wealth is another of the elemental forces of life—like electricity. A man might harness a thousand rivers, and unless he generated their force, and used them, he would be as poor as a church mouse. Using them, he releases a force in which all men share.

We might take all the actual cash in the world and split it up—and each man would go home with his share. That would be a division of a metal called gold. Little more. But using the accumulated wealth of the world to build homes and roads and all the fruits which come from the laboratory of industry—this is an actual distribution in which everyone shares.

Remember when kids were glad to just get the core of an apple?

Many Urge Capital Be Moved Westward
Transfer Is Urged For Safety's Sake
Washington Vulnerable To Air Raids

By CHARLES P. STEWART
(Central Press Columnist)

WASHINGTON, Feb. 12.—Moving the capital of the United States from its present site to a farther inland city seems like a near-impossibility. Nevertheless it is being urged quite numerously and in tones of obvious sincerity. Representative Francis Case even has made a speech on the subject in congress, pointing to the Black Hills as an ideal area for the seat of Uncle Sam's government. Hailing from South Dakota, as he does, the legislator's choice of geography is understandable. Other lawmakers doubtless would prefer a selection in some of their own various dooryards, but Representative Case beat them into the Congressional Record with his recommendation.

Reasons given for the proposed change vary all the way from the decidedly frivolous to the pretty well considered.

Among the latter is the verdict of experts that Washington is very vulnerable to a devastating air raid. So is New York, to be sure, but there are commercial reasons why Manhattan could not possibly pull up stakes and go elsewhere, no matter what its danger. Washington could do it, at least theoretically.

Civilian Defense of the District of Columbia, has been discussed exhaustively. "The attack surely will come," predicts Col. Harold Evans Hartney, a No. 1 World war aviation ace, warning the United States Chamber of Commerce what he foresees, as ahead of us. Beating the Germans won't prevent it, the colonel assured his hearers. Contrariwise, his forecast was that it simply will be hastened, as the Nazis grow desperate.

As a practical proposition, it is emphasized that Washington, geographically, is an exceedingly inconvenient center of government.

It was picked when we were a small group of eastern states and the site was central at that time. Now it is close to the outer edge and unhandy to get into or out of. I don't know that Deadwood would be an improvement on it, but Chicago, for example, might be.

Then, there is the awful Washington jam to be reckoned with at junctures like the present. Not much of the jam would be relieved by a transfer, say, to Deadwood, but Chicago might have more elasticity. It has unoccupied prairies to fall back on. That burg is fairly well equipped to accommodate big gatherings, though capitalization would strain it, undoubtedly.

I have mentioned trivialities as entering into the equation.

Critics speak of Washington as having the most fiendish climate in North America.

They do not exaggerate.

Like many localities that aren't afflicted, like the polar regions, with very low thermometrical ratings, their discomfort is terrible.

Folk, including congressmen, who are marooned here, suffer terribly.

Transportation is tied up. Mail deliveries have to be suspended. Sessions of congress have to be postponed. It actually interferes with government. One of these District of Columbia sleetstorms is a curiosity.

The last one tied up business for a week and folk went hungry.

Rationing had something to do with it, but so did the weather.

But suppose we don't want to move?

Look at the plant we are asked to move out of!

One Man's Opinion

February supplement to "modern martyrs" or "noble sayings under trying circumstances." Australian edition.

"What happens to me is of no importance. To me, prosecution of the war is above all other considerations"... Ed Flynn requesting withdrawal of his nomination as minister to Australia.

"What happens to me as an individual is unimportant. The real issues involved in my case are inseparable from the aims of all peoples and all countries now engaging Hitler and the Axis powers"... Harry Bridges fighting deportation to Australia.

What happened to Mr. Flynn is that he has returned to his first love—Bronx politics—with all ideas of Canberra temporarily put aside.

What happened to Mr. Bridges is that he was ordered deported by Attorney General Biddle a year ago, is still around and probably will continue to be around even after "the aims of all the countries now engaging Hitler and the Axis" have been achieved.

By that time he will have thought up a new aim or will have thought up a new attorney general.

Thought for the day: What happens to us shouldn't happen to anybody.

Words Of Wisdom

If thou art wise thou knowest thine own ignorance; and thou art ignorant if thou knowest not thyself.—Luther.

The World and the Mud Puddles

JUST WIN THE WAR

Aside from all the perplexing and nerve-wrecking anxieties about what is going to happen to us some day, we should be as content as possible right now with the conclusive evidence that we have started to win the war.

What would happen to us if we didn't completely obliterates all the confounding problems of what will happen to us if we do.

Already we have spent or appropriated $120,000,000,000 with which to carry on the war and other expenses. And the word comes from Washington that the President is asking for another $100,000,000,000. What chance is there to be sensible under these circumstances?

The total physical value of the entire country is not much more than those combined figures.

One of the uppermost questions now being heatedly discussed is whether we better win the war this year or keep it going a year or two. One Admiral up in the front says Germany will be defeated by Easter, but he is fighting the Japs.

Those fighting in Europe assure us that Japan will be brought into camp in short order just as soon as Hitler is out of the way.

Meanwhile, those at home are annoying the President with their diversified opinions on what the peace terms should be.

In his address before Congress on the state of the Union, the President talked like a fighting man. He never mentioned peace, except to remark that we may expect some tough days ahead.

If the President would ever get over the idea that the people of the back country are not in this war to the finish, and pay a little more attention to some of the questionable patriots around him in Washington, it might relieve his mind. It would certainly put heart in some old-fashioned folks who are concerned about this country getting too bossy at the top.

Americans don't like being pushed around. They don't swallow threats with a good grace. They don't like being reminded all the time about a $10,000 fine and ten years in prison if they don't stay home nights and be content with twiddling their thumbs and keeping quiet.

It is not unnatural that people should be wondering about unemployment after the war. They remember only a few years ago when ten or twelve billion men and women were walking the streets, jobless and penniless and wondering from where their next meal was coming.

It doesn't compose their anxiety to hear Vice President Wallace sounding off about a Utopian world just around the corner, with America policing the world and starting milk routes through the jungles of Borneo. There is nothing to relieve the strain about our offering to feed the starving millions of the universe without money and without price, as noble and lofty as it may sound. And there is just a trace of uncertainty about the wis-

LOOKING AT LIFE

—By Erich Brandeis

The famous "Diamond Horseshoe" of New York's Metropolitan Opera may soon be dismantled and regular seats for the hoi polloi may be installed instead.

The directors are seriously considering this step. Times have changed, they say, we are living in a new era.

In the mauve decade, when the "Four Hundred" was really looked up to, the Diamond Horseshoe was the epitome of elegance.

Here dowagers displayed their diamonds, matrons their minks and sables, millionaires flaunted their foreign counts and barons, either rented for the evening or purchased for their daughters.

On opening night pages were given to the reports on the Diamond Horseshoe. Who was there? What did she wear? How many pounds of tiara? How many rings and what karat weight?

To be seen in the Diamond Horseshoe on opening night was the equivalent of admission into high society.

But things have changed. People don't go in for vulgar displays of wealth any longer.

Too much display of wealth may attract the revenue officers. It also acts as a bait for hold-up men and burglars.

But, above all, we have reached different standards. We have grown up.

Money alone is not the yardstick of success any longer.

The successful men and women of today are people who do things rather than those who have things.

It's not so much whom do you know as what do you know?

It has been discovered that there are several ways to acquire furs and jewelry. Gold digging is no longer confined to the mines.

Even when this war is over I wager that the days of vulgar display will never return.

A scar left by a piece of shrapnel will be infinitely more valuable than a ten-karat diamond ring. A Distinguished Service Medal will outshine the most expensive lavaliere.

ROOSEVELT MAY BE CANDIDATE

Democratic Colleagues See Possibilty Of Fourth Term Effort

(International News Service)

WASHINGTON, Feb. 12.—President Roosevelt's Democratic colleagues on Capitol Hill generally believe today that he will be a candidate for a fourth term unless, in anticipation of a Republican landslide, he names a deputy to carry the party standard through the 1944 campaign.

His colleagues say the president will make no announcement of his 1944 plans prior to the convention—a repeat of his 1940 strategy—unless he decides to retire.

But 1944 will differ from 1940 for Mr. Roosevelt in one major aspect. In 1944, he will meet with determined opposition from many of his own party leaders if he seeks a fourth term. This opposition will fight him in primaries, in the convention and in the campaign itself—even to the possible extent of creating a third party along Jeffersonian Democratic lines for the sole purpose of trying to defeat him.

In an opinion handed down by Judge W. Walter Braham on Thursday, the sale price of a property formerly owned by Battista Congelosi at $600. The property was sold by the county treasurer to the county commissioners for delinquent taxes. The property is assessed at $2200, has accumulated taxes of $1475.44 back of it and has a mortgage of $2600 against it.

When the property was bid in by Angeline Schiavone, the City of New Castle and the New Castle School district objected to the price offered. It was ascertained it would cost approximately $1000 to repair the property. Judge Braham decided the price of $600 was sufficient for the property.

MORE WORKERS WILL BE NEEDED

Forty-Eight Hour Week Will Not Provide Enough, It Is Estimated

(International News Service)

WASHINGTON, Feb. 12.—President Roosevelt's 48-hour work week order, it was estimated today, will make available less than 10 percent of the 6,500,000 workers which must be added to the nation's labor force this year.

As both industry and labor awaited issuance of an order from WMC Chief Paul V. McNutt implementing the president's directive, it became apparent that the 48-hour decree is more of a segment of the over-all manpower program that an end in itself.

Informed officials said that the best statistics of the WMC indicated that, if the order were applied to every section of the country, it would release for other essential employment only approximately 500,000 workers.

Earlier estimates indicated that 1,500,000 workers would be freed by the order.

NATION TO SEEK RIGHTS TO BASES

Considering Negotiations For Permanent Rights To Atlantic-Pacific Bases

(International News Service)

WASHINGTON, Feb. 12.—The United States government today is understood to be seriously considering the possibility of agreements with some of the leading Allied powers which will give America the permanent right to use strategic air and naval bases in the Atlantic and Pacific

A definite opinion exists in authoritative quarters in Washington that negotitaions to conclude there agreements should be opened soon with some of the Allies, especially Great Britain, Australia and the Netherlands.

The view prevails strongly in government circles that the agreements should be concluded during the war and while the United States is extending aid to the Allies under the lend lease act.

The World and the Mud Puddles

(Continued From Page 4)

dom of promising money and credit to all the earth.

No one is objecting to a lavish and liberal expenditure of funds to keep the war going our way, but in the end, when it is finished, we will be lucky and blessed of the Almighty if we are able to look out for ourselves for a while without serious trouble of our own.

And it is at this point where the devision of opinion will start. To do the things that Mr. Wallace is talking about would call for a radical and drastic departure from our recognized system of free government, and as much as I love the Bolos, the Mongolians, the Italians and the Turks, I am for getting the home fires burning first, and you may call that being an American Firster, or Isolationist or anything you please. I am for America FIRST, last and all the time.

If America is able to do all those things suggested by Mr. Wallace, then we must be pretty good. There must be a reason why this country right now is able to step in and furnish what it takes to win this war. There must be a reason why in one short year we are able to out-produce the combined Axis powers in war material, as the President says.

If we are doing that, it must be a pretty good system we have in this country, and it has been done without any force or compulsion. The President said what was needed and American industry went ahead and did it, and they did it despite a lot of unnecessary interference from government bright minds, as we all well know.

For anyone to consider for a moment that we should exchange our way of doing things for some other visionary model or system would be to discredit the very methods that have made it possible for us to come to the rescue of the world and humanity.

For us to attempt to adopt the whole world as a multitude of helpless orphans, would be not only a hopeless undertaking, but it would reduce us to a level of living that would bring about a revolution at home. If America is really destined to lead, it must preserve the qualities and ability for leadership, and not drop back for centuries into a period of existence with all our lessons in progress forgotten.

When the war is finally fought out and won, the nations of the so-called civilized world will be prostrate on their backs, all with the possible exception of our own United States of America. How we will survive and chin our own condition, I haven't the remotest idea. But I have faith in our spirit and our ability. That faith, however, is based solely on the strength that comes from human freedom.

And it will not be forthcoming from groveling in the dust. It is the product of self-esteem, confidence and assurance.

suppose they are blasted off the earth by Axis bombs! What good will they be then?"

That is why they want them moved inland.

How far inland is questionable. Anyway, it will be farther than Washington.

It will be mussy as New York; it will be strategic as to Washington.

It will be nicer if Washington, as the capital, is not here.

Well, it isn't likely to happen.

Still, strategists say it CAN.

Dearwood is rather remote. Chicago might put in quite a formidable bid, with a view to the future. It's got to be an internal point, to fill specifications.

EDENBURG

WOMAN'S SOCIETY

Fifteen members were present at the home of Mrs. Clifford Beight on the north side Wednesday evening, for the meeting of the Woman's Society of Christian Service of the Methodist church, with Mrs. Merlin Felger as associate hostess. The meeting was in charge of the president, Mrs. Roy Raub, with Mrs. Paul Roberts devotional leader.

During the business meeting plans were made for a pie exchange of the members of the society in February and a tea in April in the township building.

The first two chapters of the study book were ably given by Rev. Everett Spring, who was a guest.

Delicious refreshments were served by the hostesses, assisted by Miss Shirley Beight.

Mrs. Paul Roberts, Mrs. Charles McCullough, Mrs. Roy Unangst and Mrs. Ray Biddle were appointed to the committee for the World Day of Prayer.

EDENBURG NOTES

I. M. Hofmeister called in New Castle last Saturday.

Mrs. Kathryn Roberts and daughters Jenne and Ruthie visited in New Castle on Monday.

The missionary women of the Christian church met at the home of Mrs. Harry Filby on Thursday for their monthly meeting and tureen dinner.

War mangement: Many good workmen making machine parts to suit their own ideas, but nobody seeming to care whether the parts will fit together.

Children died because London's air-raid shelters were locked to prevent use by the naughty. Sometimes we wonder if imbecility isn't a sin, too.

FOUR THOUSAND JAPANESE SLAIN

At Least That Number Killed In Last Six Weeks At Guadalcanal

(International News Service)

AT AN ADVANCED BASE IN THE SOUTH PACIFIC, Feb. 12.—At least 4,000 Japanese were slain by American Army units in the last six weeks of the Guadalcanal campaigns.

These casualties were disclosed today by Maj. Gen. Millard F. Harmon, field commander in the drive which cleared the enemy from the strategic island base.

No more than 2,000 enemy troops were evacuated in the final ten days, he said. The Nipponese remnants fought bitterly throughout the last half of January, and isolated groups which had entrenched themselves in strong positions fought to the end, Gen. Harmon declared.

"We had to annihilate them, group by group," said the American commander.

PERSONAL MENTION

John Speed, Jr., of R. D. 6, who underwent an emergency appendix operation on Tuesday, is doing as well as can be expected.

E. E. Marshall of 226 Fairfield avenue, who has been confined to his home with illness for a number of months, is improved and able to be out.

Miss Gertrude Landgraf of Butler, Pa., has concluded a three weeks' visit with Mr. and Mrs. George Shaney, 1612 East Washington street.

Mrs. Mary E. Cimini of R. D. 2, Youngstown road, left Thursday evening for Camp Phillips, Kan. to visit her husband, Private First Class A. J. Cimini, who is stationed there.

Miss Marjorie McNicholas of Beckford street and Mrs. Alex Miles of Wilmington road left Thursday morning for Goldsboro, N. C., where they will visit for about a week with the latter's son, Alex Miles, Jr., air corps instructor there.

Have Your Children Enrolled in Our New
J. S. P. C. G. F.
(JUNIOR SOCIETY FOR PREVENTION OF CRUELTY TO GROWING FEET)

SHOES have a new and growing importance—for adults yes—but particularly for YOUNG CHILDREN. Your child has feet that are not only walking more this war year but also GROWING MORE . . . preparing for a lifetime of walking! Cheap, wrong, badly fitted shoes can do those feet untold harm! . . . That's why we've started our "J.S.P.C.C.F." and established a system whereby your child gets a complete foot check-up each time he comes in for shoes, a careful fitting, quality shoes, and correction of foot troubles if they are caused by bad shoes and can be corrected by good ones!

Here's Our Child Foot Health Plan:

1 Your child's foot is carefully measured—length, width and heel—and size and last decided upon.
2 Feet are checked for corns, bunions, weak arches and other foot ailments that call for shoe correction. In co-operation with physician and Chiropodists!
3 Proper shoe is selected from our quality stock and fitted according to the information we have gathered.
4 The final check is an x-ray examination which shows exactly how your child's foot stands "within" the shoe.
5 We keep a written record on file of information on all details on size, fit and correction for each child.

IMPORTANT: We will make a free examination of your child's feet at least every two months. Enroll now!

You Wouldn't STAND FOR THIS
Chronic fatigue and lack of pep, resulting in poor school work!

Nor THIS:
Bad temper due to headaches, leg pains, chronic backaches, health below par.

Mahoningtown Lad's Tour Of Pittsburgh Ends

(International News Service)

PITTSBURGH, Feb. 12—The parents of spunky 11-year-old Ross William Fullerton of Mahoningtown, near New Castle, were scheduled to claim their son at juvenile detention home here today after his job-hunting odyssey in Pittsburgh ended up in a police station.

Fullerton, who had planned to see the sights in the "big city" and get a job in a war industry, was found last night curled up in a cardboard carton in a parking lot at Liberty avenue and William Penn place.

He told police he had eaten only an orange and a sandwich given to him by a stranger on the train. And, he added ruefully, his ill-fated venture cost him all but 11 cents of his hard-earned "nest egg".

GEN. EISENHOWER TAKES COMMAND

(International News Service)

ALLIED HEADQUARTERS IN NORTH AFRICA, Feb. 12.—Gen. Dwight D. Eisenhower, promoted in a few short months from Major General to the temporary rank of Full General, today took up his duties as commander in chief of all Allied Forces in North Africa.

The command of the American general, with a staff of expert British generals, including veterans of Dunkirk, extends from Dakar in French West Africa to the Egyptian border.

Unwatched Pot Is Cause Of Fire In Co-ed Dormitory

(Special To The News)

NEW WILMINGTON, Feb. 12.—"A watched pot never boils," some say, but Ferguson Hall co-eds at Westminster college are saying "a pot that isn't watched boils dry and then..."

Investigating a fire scare in a first floor kitchenette recently, the house director and co-ed sleuths discovered the source of the voluminous smoke to be in the third floor kitchenette.

A pot of boiling handkerchiefs had been forgotten, boiled dry and caught fire. Instead of passing up and out the air shaft as it should have, the smoke forced its way down the ventilator into the first floor pantry, frightening the lower hall roomers.

ARMY AND NAVY CALLS ARE HEAVY

Use As Much Telephone Facilities In State As Does City Of New Castle

If all the Bell Telephone facilities used by the army and navy in Pennsylvania were centered at one point, they would originate as many local calls as does the city of New Castle, Philip C. Staples, president of the Bell Telephone company of Pennsylvania, said today in his annual report covering last year's telephone operations in the state.

He added that such a concentration of telephone equipment also would originate "more toll calls—including army flash calls—than does Harrisburg."

Operating taxes totaled $13,632,000, an increase of 28 per cent over the previous year. Total taxes for 1942 amounted to $9.05 per telephone on the average number in service during the year.

Net income decreased $825,000, or 8⅛ per cent. Dividends of 6½ per cent on the capital stock of the company were paid during 1942 as compared with 8 per cent in 1941.

Capping Exercises For Student Nurses

At New Castle Hospital School Of Nursing Sunday Afternoon, February 14

Nineteen students of the pre-clinic class of 1945, of the New Castle hospital School of Nursing will be formally received into the School of Nursing, with capping exercises Sunday afternoon, February 14, at 3 o'clock, in the nurses' home.

At this period in the education of the undergraduate nursing students, requirements in academic studies and also practice of the pre-clinic period have been completed. Upon receiving their caps, the students will be assigned to hospital duty in order to further their training.

Relatives and friends of the student nurses, and hospital personnel will attend the exercises, which will open with procession, and then invocation by the Rev. Fr. Vincent O'Donnell, chaplain of the New Castle hospital.

Dr. S. W. Perry, Jr., will be the principal speaker of the afternoon. Attorney Elmer O'Neill, a member of the School of Nursing council will be in charge of the reception of the student nurses. Sister M. Dolorosa, director of nurses, will cap the student nurses.

Following the exercises, a social time will be held for the parents and friends of the student nurses. Tea will be poured b Mrs. A. W. Shewman and Mrs. J. Lumen Pouu.

Students to receive caps included: Delia Marie Appollino, Ellwood City; Jo Ann Elizabeth Baldauf; Mary Margaret Buckley; Antoinette Christine Cangey; Marie Elizabeth Carlin; Lila Marie Cole; Joan Elizabeth Cordone, of Strantonville, Pa.; Frances Dean Dinsmore; Eloise Hahn; Joyce Elizabeth Leicht; Evelyn Mae McEwen; Madalynne Reed Price, Canonsburg, Pa.; Josephine Angeline Skanesky; Evelyn Berry Stratton; Doris Elaine Stiefel, Ellwood City; Minerva Suciu; Rose Elizabeth Terreri; Ann Louise Branges, Farrell, Pa.; and Bessie Viola Wimer, Portersville, Pa.

Will Hear Gas Complaints From Truckers Tuesday

Harry G. Boyd, Youngstown administrator for the Office of Defense Transportation, announced today that he will be in the Aiken school, on Pearson street, Tuesday, Feb. 16, to hear complaints and requests of truckers in their gasoline allotments.

Mr. Boyd has been in New Castle on three other occasions and believes he has heard most of the complaints. The trip here on February 16 is for the purpose of closing up the list, and all truckers who have not had their difficulties in gas rationing adjusted are urged to be present, as it is likely Mr. Boyd will make no further trips to New Castle in some time.

Enlistment Of WAVES To Start Here On Monday

Local Naval Recruiting Station Will Accept Women For WAVES And SPARS

Announcement was made today by Chief Petty Officer David C. Ritchie, in charge of the U. S. recruiting station here, that enlistment of women for service in the WAVES, women's naval auxiliary, and SPARS, women's coast guard auxiliary, will start here Monday morning.

There are two classes in each auxiliary, one for those desiring to enlist for officers training and the other for the enlisted personnel.

In class V-9, for the Waves, and W-9 for the SPARS, the age limits are from 20 to 36 years of age, and the applicants must have had two years of high school or business college education. They will be enlisted as apprentice seamen.

In classes V-10 for the WAVES and W-10 for the SPARS, those desiring to enroll for officers training must have a college degree.

In case of married women desiring to enroll, they must have no children, or their children must be 18 years of age. Married women cannot enlist in the same branch of service as their husband, in case the husband is in the service. A woman desiring to join the SPARS would be eligible to enroll if her husband is not in the Coast Guard and cannot join the WAVES if their husband is in the Navy.

Further information in regard to enlistment will be gladly furnished at the Navy recruiting office, U. S. Post Office building, on the Diamond.

Change Plan For Border Crossing

(International News Service)

WASHINGTON, Feb. 12. — The State Dpartmnt today announced that the American and Canadian governments have agreed on changes to simplify travel across the border.

Under a plan which becomes effective Monday, Canadian citizens and British subjects legally resident in Canada are exempt from the necessity of obtaining passports for visits of not more than 29 days.

Entry to the U. S. for longer periods and for other groups will continue as at present.

A new type of non-immigrant border crossing identification card that does not require a passport, will be issued by U. S. consular officers in Canada and will bear an endorsement by a Canadian immigration officer guaranteeing the readmissibility of the bearer to Canada. The card will be valid for any number of visits during a period of one year from the date of its issue, provided that no one visit shall exceed 29 days.

WYNONA AUXILIARY MEETS AT BESSEMER

Mrs. Ralph Engle of Bessemer received members of the Wynona Auxiliary Thursday evening in her home, with Mrs. Paul Nord and Mrs. Mary Nord, co-hostesses.

The program was in charge of Mrs. Audley Snyder, and she presented as speaker, Mrs. LeRoy Hostetler, a former resident of the South. Mrs. Hostetler related interesting facts concerning "The Negro and Conditions in the South."

Mrs. Lester Nord gave a talk on "Education and Standards of Living of the Negro."

Business followed, with election of officers taking place. They are: President, Mrs. Monas Cunningham; vice president, Mrs. Paul Snyder; secretary, Mrs. Ralph Engle; treasurer, Mrs. Chester Rowe.

Games were enjoyed under the direction of Mrs. George Pelto and lunch was served.

The Swiss Confederation was formed on August 1, 1291.

SEVENTH WARD

Local Youth Gets Flying Cross For Papuan Campaign

Mr and Mrs. Millard Cheek, of East Cherry street, have received word that their son, Technical Sergeant Willis Cheek, has been awarded the Distinguished Flying Cross for his participation in fifty flights over the Owen Stanley Mountains, New Guinea, dropping supplies for advanced Allied positions, and removing the wounded during the Papuan campaign.

He was one of the two radio operators who took part in the flights in an unarmed transport. Sergeant Cheek has been in the U. S. Service for three years, and went overseas on October 18, 1942.

G.I.A. TO B.L.E. MEETS THURSDAY

At the Y.W.C.A., members of the Grand International Auxiliary to the Brotherhood of Locomotive Engineers met on Thursday afternoon.

Balloting for new members took place. Mrs. C. A. Probst presided. Further plans were made for the thirty-fourth anniversary of the auxiliary, which will take place Monday, February 15. On this occasion a chicken dinner will be served at 6:30 p. m. in the First Methodist church. The husbands will be special guests.

Later, they will adjourn to the lodge rooms in the Y.W.C.A., where a program of entertainment will be given.

Next regular meeting will be February 25 at 1:30 in the Y.W.C.A., when candidates for membership will be initiated.

TUREEN DINNER

On Thursday evening, Church school officers and workers of the Mahoning Methodist church met in the dining room, for a tureen dinner.

Fred Wettich presided, when plans were discussed for a Lenten program in the church school. The recent attendance contest in the school will be concluded with an entertainment program, given on Friday, February 19, given by the losing (red) side.

Week of dedication will be February 28 to March 7.

M. E. G. AUXILIARY

Mrs. Manley Broaddus, of West Madison avenue, entertained the M. E. G. Auxiliary, of the Mahoningtown Presbyterian church, at her home, Thursday evening. Mrs. Clarence Allen was associate hostess.

Mrs. Edwin Walker led the devotions.

Letters were read from service men thanking for boxes of cookies etc. sent them, and from Mary Jane Holmes College, Mississippi, telling of work there. Reports of Presbyterial executive committee was given by Miss Ethel Scheidemantle. The local church will be host to Presbyterial, March 31.

Officers were nominated for church year beginning April: Mrs. Wade F. Daugherty, president; Mrs. A. C. New Air Raid Rules Will Be Discussed Here

Meeting Is Called For Saturday At Court House By Defense Director

In a state-wide air raid drill which will be held Wednesday, Feb. 17, there are many new rules which should be familiar to district chairmen, air raid wardens and others in the civilian defense work, according to Louis B. Round, executive director of the Lawrence County Council of Defense.

In order to familiarize the defense workers with the rules, Mr. Round has called a meeting for Saturday afternoon, Feb. 13, tomorrow, in the Lawrence county court house, at two o'clock.

At this meeting it is hoped every district chairman or a representative will be present. Also it is urged that every industry, railroad and utility company have a representative present.

COST OF KEEPING DOGS TAKES LEAP

Chief of Police Willis G. McMullen today announced the dog catcher, Jack Young, colored, had found that the high cost of living had hit the city dog pound and from now on, persons whose dogs are impounded must pay $1.00, instead of 50 cents, for a release.

The dog catcher feeds the dogs while they are kept in the dog "jail," hence the "HCOL" of canines.

CONGRESS BEGINS TO SHOW VIGOR

National Legion Commander Waring Gratified At Recent Action Of Body

(International News Service)

CHICAGO, Feb. 12.—National Commander Roane waring of the American Legion was gratified today that congress, as he said, "was beginning to assert itself."

Speaking at a dinner in his honor in suburban Winnetka, Waring said:

"Thank God congress now is beginning to recognize and to assert its authority as the law-making branch of the nation.

"They (Congress) must assume their full responsibility and act without regard to petty political advantages or to class or sectional interests."

At the dinner, sponsored by the Winnetka post of the Legion, were several hundred veterans and high ranking officials of the army and navy. Waring left immediately afterward for Springfield, Ill., where he was a chief speaker at Lincoln memorial ceremonies today.

National Chairman Spangler Intends To Work Closely With Congress Members

(International News Service)

WASHINGTON, Feb. 12.—Republican National Chairman Harrison Spangler today informed congressional leaders that he plans to expand the committee staff in preparation for the 1944 presidential campaign.

Spangler also disclosed an intention of working more closely with Republican members of congress than have some of his predecessors. The plan is to conduct a liaison with congress through the Republican senatorial and congressional campaign committees.

An immediate drive for funds to fill depleted coffers also is planned by Spangler to make possible expansion of committee work.

The new GOP chairman discussed plans for the future with ex-Sen. John Townsend, chairman of the senatorial campaign committee, and Rep. William Ditter, Pennsylvania, head of the congressional committee. Republican Senate Leader Charles McNary and Republican House Leader Joseph W. Martin were consulted.

Your Federal Income Tax

No. 35
DEDUCTIONS FOR BAD DEBTS
(Part 1)

If a debt has become worthless during the year, the amount may, with certain exceptions, be taken as a deduction in arriving at net income for Federal income tax purposes. Bad debts occurring in course of trade or profession are shown in Schedule H to arrive at net profit (or loss) from business or profession; other bad debts are shown in item 16 of the return, Form 1040, and must be supported in all cases with a statement (in Schedule C) showing the circumstances. Losses from corporate securities with interest coupons or in registered form, which become worthless during the year, and which are capital assets, are shown in Schedule F.

In all cases of a deduction for bad debt the explanation must show (a) of what the debt consisted, (b) name and family relationship, if any, of the debtor, (c) when the debt was created, (d) when it became due, (e) what efforts have been made to collect the debt, and (f) how it was determined to be worthless. A precise statement is required because of the many different transactions out of which the relationship of debtor and creditor may arise and the consequent many definitions of the word "debt".

In order to be an allowable deduction, a debt must become worthless within the year for which the return is made. The determination of worthlessness is an important provision in establishing the allowability of the deduction. The taxpayer must take reasonable steps to determine that there is no probability of payment or collection, and must have prima facie evidence to prove that the debt has no value. If, in the exercise of sound business judgment a taxpayer concludes, after making every reasonable effort to determine whether there is likelihood of recovery, that the debt is of no value, a deduction for such debt may be allowable. Court action, such as a legal judgment or adjudication in bankruptcy is not necessary as proof that the debt is worthless, as indeed it frequently happens that a debt may be worthless before the debtor has been adjudged bankrupt.

A second important provision regarding deductibility for bad debts is that the deduction must be taken in the taxable year in which the debt becomes worthless. The fact that a debt is still held open on the books of the taxpayer does not mean that it has value and the law does not permit a taxpayer to defer claiming a deductible allowance on that account, beyond the year in which it becomes worthless.

A further requirement regarding deductibility for bad debts is that a debt must have existed in fact and in law. If a debtor was not legally liable to the taxpayer, then there was no debt to become worthless. Advances to relatives to tide them over financial straits, made out of moral considerations and without understandings regarding repayment, are frequently held to be in the nature of a gift rather than a loan, and consequently no deduction would be allowable for nonpayment. However, when a loan is made to a relative in a bona fide business transaction a deduction may be allowed because of uncollectibility.

If the man who checks on your income tax report doesn't seem hateful or disagreeable, it means your conscience is clear.

Nation Is Headed For More Active Real Estate Market Babson Believes

By ROGER W. BABSON
(Copyright, 1943, Publishers Financial Bureau, Inc.)

BABSON PARK, Mass., Feb. 12.—Everyone is asking what will happen to business, employment, agriculture, the railroads and other affairs after World War II. Even an interest is developing in the long-forgotten stock market. I have my opinions about all these things; but of necessity they must be subject to change in the light of new conditions. Hence we will not now discuss them.

BABSON

Real Estate Booms Once a Generation

Of one thing I am certain—that is we are headed for a much more active real estate market. I will not now forecast a real estate boom—but such may occur. Moreover, I haven't any land to sell! The only bit of land that I own personally is that upon which my Wellesley, Mass., home is located.

Statistics, however, show that a real estate boom comes once every generation. Biologists figure a generation twenty-one years or more. Thus, the children of every generation must have a fling at real estate themselves. They refuse to listen to their parents' advice. This may even apply to Florida, which had a boom in 1924-26. This means that those who are now thirty years of age were only twelve when the Florida boom was on—that is, they don't remember it. They are the ones to start another land boom.

Money Cannot Be Destroyed

There is some real logic for a land boom after World War II. I have in mind the tremendous and unlimited supply of bank deposits, cashable government bonds and pocketbook currency which will be floating about this country. The government spends $250,000 for a bomber which is destroyed, or $2,500,000 for a ship which is sunk; but the money is neither destroyed nor sunk. It remains in banks, bonds or stockings, although its purchasing power may be destroyed.

Someday this money will be spent for something. It will continue to circulate for a long time. During the process, much of it will go into real estate. Buying bonds and paying taxes will postpone inflation; but not prevent it. The money which we pay into the government for bonds or taxes is immediately paid out to farmers, wage workers and others. Sooner or later they are going to buy something with it before its purchasing power declines.

Homes Are Good Investments

Readers should remember that inflation does not necessarily mean that everything will go up in price. Owing to the great supply of rubber, aluminum, copper and other raw materials which will be available after the war, it is very possible these will decline in price. With ten million soldiers returning, there surely will be no wage advances. Owing to the falling off of government business, there will be very sharp competition among manufacturers for domestic business. This may result in price cutting.

Hence, what will these incomprehensible billions of dollars go into? What will go up in price due to increased buying? In what will people speculate to satisfy their unquenchable instincts? In what will the thrifty invest when they get tired of holding depreciating currency? My answer is "Either land or stocks". Certainly, a small, well-located modern home with enough land for a garden is a good investment.

How Booms Are Caused

Of course, much of this money will go into automobiles, refrigerators, television radios and furniture of all kinds. Houses will be repaired and repainted. New clothes will be bought and a thousand other channels of trade will come to life for awhile. All of these things are, however, mere chicken feed to what can be spent for land and stocks when a boom is on. Also remember that even then the money is not destroyed! The chap you buy the land or stocks from has your money and will use it to buy more land or stocks.

A depression is caused by everyone wanting to sell. A boom is caused by everyone wanting to buy. Booms collapse when too many people who have borrowed money are called upon to pay their loans. This they cannot do without selling more property. The result is a general decline in values which means more loans are called and so things go from bad to worse. Finally, prices get so low that they look ridiculous and buyers come into the market and the depression is over.

Times Are Different Today

Of course, some day we shall have another depression and it will be a sad one—probably worse than the last. In the meantime, however, there is sure to be a boom in real estate and—if the S. E. C does not kill it—also a boom in stocks. Why am I saying there is time before then for a real estate boom? Here is my answer. Today the United States government is the only borrower from the banks and from the people. The people now don't owe the banks as they did in 1929. The banks can't call Uncle Sam's loans. Think it over!

P. S. Please don't write me for personal advice on real estate. Every piece is different; all localities differ; and it would be wrong for me to advise as to the purchase or sale of any property without seeing it with my own eyes.

Bundles' Ask For Pool Tables For Men In Service

Jacob Elias Of Hamilton Street Will Take Down And Assemble Tables Free For U. S. Camp

"Bundles for America" organization has already secured two pool tables, which have been set up by Jacob Elias of Hamilton street, this city, are found the perfect outlet for hours of recreation for the Shenango depot at Transfer.

Mrs. Grace Phillips Johnson, president, announces that the organization has been most fortunate in securing Mr. Elias, who has generously donated and offered in the future his services in taking down and reassembling the pool tables at the camp for the boys in uniform. This job is done accurately and Mr. Elias has it mastered to the point he is called many hundred miles to other cities for his supervision of same. He set up two tables at the Shenango depot, and will gladly take care of more. He knows there are a number of pool tables not in use, and it would be most patriotic for persons to donate same to help our U. S. service men.

Anyone having a table they wish to donate, call either Mrs. Johnson, Mrs. G. G. Stitzinger or the Bundles' headquarters, 6518.

What is more calculated to make us soft and effete than the unwholesome practice of giving a generous free package of the product to a quiz contestant for muffing the $2 question?

Five-Cent Deposit For Milk Bottles In Statewide Area

Milk Control Commission Order To Save Materials, Cut Cost Of Distribution

(International News Service)

HARRISBURG, Feb. 12.—The Milk Control commission on Thursday ordered a five-cent bottle deposit, effective March 1, for the state-wide milk marketing area. The order also provides for a 25-cent deposit per can or case on sales to stores, hotels, restaurants, schools or other retail establishments.

The commission stated that the purpose of the order was to avoid waste of materials and reduce the cost of milk distribution. In other areas, it was pointed out, the deposit has resulted in more careful handling of bottles and their prompt return to the dealers.

"It was found that there is a saving of material as well as much less broken glass in streets where it may become a menace to children and to automobile tires," the commission said.

The statewide area covers approximately four-fifths of the state but only about 16 per cent. of the total population. It involves chiefly the rural districts of 25 counties.

YWCA Membership Ingathering To Open March 25

Membership Committee Meeting Is Held To Plan Ingathering

Mrs. George Morris and Mrs. Ernest Stitzinger are chairman and co-chairman of the annual Y. W. C. A. membership ingathering which will open with a dinner for workers on Thursday, March 25, at 6:15 p. m.

The Y. W. C. A. membership committee met to plan this year's ingathering which will follow the general outline that has been successful in the last three years. Church teams and Y. W. C. A. club and Elm street branch committee teams will work within their own groups. The Elm street branch will serve the opening dinner on March 25 in order to buy new curtains for their parlors.

Report meetings will follow the Lenten Bible classes on Wednesday, March 31, and on April 7 at 11:30 a. m.

A letter and "Y News" will be sent to all members concerning the ingathering and Y. W. C. A. activities. Renewal work cards will include space to check the availability of bedrooms for soldiers from Transfer with their wives and parents for possible week-end visits.

Church and "Y" club captains will secure their workers as soon as possible and send their names to the Y. W. C. A. There were 1,231 paid adult members of the "Y" in 1942.

OCD NOTES

Activities Of OCD Workers Are Outlined Here

DIRECTOR'S BULLETIN

A. C. Marts, executive director, State Council of Defense, has transmitted to defense councils, a bulletin regarding new regulations concerning Regulations Number 1 which are applicable to blackouts. The major changes are as follows:

(1) A preliminary audible alarm will be sounded on the blue signal. This will be a mobilization and blackout signal. Traffic and street lights will continue so that civilian defense forces will mobilize before the red signal.

(2) A small amount of controlled illumination in building interiors will be permitted during blackouts and air raids under conditions described in detail.

(3) Emergency vehicles will be permitted to move on low beam during air raid conditions for the present, until such time as blackout lighting equipment for vehicles can be made generally available. This change makes it unnecessary for owners of emergency vehicles in Pennsylvania to purchase any further sets of blackout lighting equipment at this time. Sets already purchased should be retained against a future time when all emergency vehicles may be required to control their lights with these devices.

These changes will make it necessary to give new classes of instruction to the Air Raid Wardens, Auxiliary Police, and Staff Members of the Citizens' Defense Corps.

The State Council of Defense will not call any further practice blackouts or air raid drill until after February 17 in order that the next practice blackout may be held in conformity with the new regulations.

POST TO TAKE PART IN AMERICANISM DRIVE

Tonight at 6:30 o'clock Post 315 V. F. W. will take part in the current Americanism campaign being waged by the V. F. W. throughout the United States. Speaking in behalf of Post 315, George E. Hunt will stress the similarity between prevailing political sentiments within the United States with those which confronted Abraham Lincoln during his administration. The address will not only commemorate the anniversary of Lincoln's birthday, but will also pay tribute to the fundamental purposes of "Brotherhood Week" to be observed throughout the nation February 19-28.

Farm Equipment And Labor Shortages In State Are Now Acute

Survey Of "Typical" Farms In 33 Counties Shows Threatened Low In Food Output

(International News Service)

PHILADELPHIA, Feb. 12.—Pennsylvania farmers may be prevented from producing enough food this year to meet essential wartime needs because of shortages of labor and equipment, it was reported today by the state agricultural information committee.

Of 213 operators of "typical" farms in 33 counties, only 34 predicted an increase in farm productions, according to the survey Executive Secretary R. N. Benjamin declared:

"In view of the fact that farmers have been asked to produce far more than in 1942 to meet civilian, military and lease-lend requirements, results of this survey indicate only one thing—that food production in Pennsylvania will be dangerously low unless immediate steps are taken to remedy the labor and equipment supply situation."

WELLES URGES POST WAR PLANS

Allies Told That Now Is Time To Plan For After War Period

(International News Service)

NEW YORK, Feb. 12.—America's Allies today were told by Undersecretary of State Sumner Welles that now is the time for the United Nations to agree on definite post-war plans, including the policing of the world and measures to avoid economic rivalry.

The imperative necessity of translating into practical reality the principles of the Atlantic charter was emphasized by Welles in an address at the opening ceremonies of United Nations Month at Rockefeller Center.

Welles' public disclosure that the United States Government wants to reach a binding agreement on post-war plans without delay came swiftly in the wake of demands for such action from congressional quarters.

It followed Secretary of the Navy Knox's statement that the United States must have permanent air and naval bases in the Pacific, and demands by Senator Tydings (D), Md., and Chairman Vinson (D), Ga., of the House naval affairs committee, that negotiations be started with some of the Allies to obtain such bases under the lend-lease act.

JOHN CONSIDINE SR., PIONEER SHOWMAN, DIES

(International News Service)

BEVERLY HILLS, Cal., Feb. 12.—John W. Considine, Sr., 80, pioneer showman who brought Charles Chaplin to the United States some 30 years ago, was dead today following a four-week illness.

Considine hit the fame road as founder of the first million-dollar vaudeville theater in Seattle, Wash., while associated with Tim Sullivan in the Sullivan-Considine vaudeville circuit.

Business Analyst Addresses Realtors

Economic Advisor Charts Real Estate and Mortgages Course

At a meeting of local real estate and business leaders, held in the First Federal Savings & Loan Association Thursday evening, Roy Wenzlick, president of Real Estate Analysts, Inc., an organization composed of economists, appraisers and counselors on real estate problems, gave an address of tremendous interest to those interested in this business.

Mr. Wenzlick traced the progress of real estate and business in general from the time of the founding of our nation in 1789 to the present day, through charts which showed by graphs the rise and fall of business.

Mr. Wenzlick predicted that it would be virtually impossible to prevent inflation in some degree during the immediate future, and expressed the opinion that real estate would be one of the safest investments as a hedge against inflation.

Mr. Wenzlick was introduced by Ralph Richards, president of the Federal Home Loan bank of Pittsburgh. The meeting was preceded by a dinner in The Castleton. Others present from the Federal Home Loan bank of Pittsburgh were Vice President George Parker and A. P. Moore.

FORMER GEORGE JUNIOR REPUBLIC OFFICIAL DIES

(Special To The News)

GROVE CITY, Feb. 12.—Earle D Bruner, for 30 years superintendent of the George Junior Republic here prior to 1940, died suddenly while at his desk in the office of the Sun Shipbuilding Corporation, at Chester, Pa., according to word reaching here. Death was due to a heart attack.

The body will be brought to Grove City this evening, and services will be held Saturday from the home of a sister, Mrs. Mary Rhoades. Burial will be in the New Lebanon Cemetery.

Mr. Bruner came to the Republic during its first year of existence and continued as its executive head for 30 years.

Rev. Mills Will Speak On Army

Announcement is made today that Rev. C. M. Mills of Washington, D. C., former local pastor, will address a mass meeting at St. Paul's Baptist church, West North street, at 8 o'clock this evening, when the fathers and mothers of colored boys in the service and men home on furlough will be special guests.

One of the largest contingents of colored youths yet called into service will leave this month, Mrs. Myrtle Dantzler, chairman of the Colored Servicemen's Aid Association stated, and the meeting will be of timely interest to them as Rev. Mills has had considerable experience in working among the soldiers in his district.

There will be special music by the Keystone Quartet in addition.

Minute Man Flag Is Presented At Lincoln - Garfield

Treasury Department Recognition Given School For Outstanding Record

Assembly at the Lincoln-Garfield school on Thursday was the impressive presentation of the minute man flag of the Treasury department to the school for its outstanding record in the purchase of war bonds and stamps. The flag signifies that 90 per cent of the school's personnel is investing in government bonds to help win the war.

Two Girl Scouts, Mary Ann Grycuk and Dolores Weidner, presented the American flag while the audience sang the "Star-Spangled Banner" to open the program. A skit by the sixth grade followed, and a reading by Juanita Alexander, speeches by Donald Kulkin and Fred Hassen and an explanation of the Victory Poster. The poster showed that $2800 worth of stamps and bonds had been bought through the school since Jan. 4.

Sally and Mike Gabriel, Philip Alpern and Steven Lubinski, the highest buyers during this week, pasted two letters on the poster.

Minute man banners, miniatures of the flag, were presented to the 14 classes having 90 per cent or more buying for the month of February.

Presentation of the flag was made by B. K. Thacker, city chairman, after an introduction by Miss Montgomery. Principal L. C. Black made the acceptance speech while Girl Scouts Gloria Mazurkiewicz and Adele Strutin held the flag.

As the Treasury flag and the American flag were raised, in front of the school building by Boy Scouts Steve Fallos and Albert Aysse, the children sang "America".

PLAINGROVE

GRANGE MEETS

Plaingrove Grange met at the hall on Tuesday evening. After the opening exercises the following program was in the hands of the lecturer, Mrs. Pearl Patterson:

Song by the group, led by Miss Mary Elizabeth McCommons.

Roll call, "Something I can do this year to help the grange."

Gettysburg Address—James McKissick.

Song, "Let Me Call You Sweetheart", by the younger group.

Song by the older group, "When You and I Were Young, Maggie."

"Some ways to conserve on tires"—Carl Heckathorne.

"Some ways to conserve on gas"—Given Shaw.

Debate, "Which is the most profitable, White Leghorns or New Hampshire Reds?"; affirmative, Walter Rodgers and Edwin Gardner; negative, Mrs. Edith Gardner.

Committees, social, Mrs. Pearl Minor, Mrs. Gladys Neely and Mrs. Florence Shaw; home economics committee, Mrs. Nora Heckathorne, Mrs. Edith Gardner and Mrs. Avonell Burns.

Meeting closed by the usual signs of the order.

YOUNG PEOPLE'S SERVICE

Young people of the U. P. church had charge of the morning service on Sunday. Prelude, call to worship, praise, prayer, Mrs. Mary Faivre; dedication of the flags, American and Christian; Miss Estella Adams presented them to the congregation and Robert Peebles accepted them.

Prayer, the leader; scripture; topic, "O, shine on my heart thru the Light of the World," Miss Frances Brown; "The shadows of earth will scatter as it shines," Miss Dorothea McKissick; song by the congregation; "Pass it on, 'tis His Plan", Miss Agnes Peebles; closing song, by the congregation.

PLAINGROVE NOTES

Miss Melva Jane Miles has returned to school, having been absent on account of illness.

Mrs. Jennie Baker of McCaslin has concluded a visit at the home of her son, William McConahy.

The remains of Mrs. Alice Rodgers were laid to rest in the Presbyterian cemetery on Saturday afternoon. Rev. Edward Tuten had charge of the services.

Private Adolph Cisco from Camp Leonard Wood, Mo., is on a furlough of several weeks, recuperating from an appendicitis operation. He is visiting friends here.

Mr. and Mrs. Raymond Eppinger of New Castle announce the birth of a son at the Jameson Memorial hospital on Sunday. Mr. and Mrs. Eppinger are former residents of Plaingrove.

Those from here who attended the poultry meeting at New Castle on Thursday were Mr. and Mrs. Ray Foster, Mrs. Pearl Patterson, Mrs. Belle Pollock, Mrs. Lucy Wallace, Frank Adams, Mr. and Mrs. Clyde Adams, Mrs. Elsie Cunningham and Gerald, Mrs. Grace Hohman, Mr. and Mrs. Clyde McCommons, Mr. and Mrs. Joe Winder, Mr. and Mrs. Walter Rodgers, Mrs. Mae Peebles and Mr. and Mrs. Don Burns.

"Must be some reason why this all-purpose flour does such tender baking!"

. . . say New Castle Homemakers

Of course! It's the "tender blend" of wheats in Pillsbury's Best helps make all your baking full-bodied and satisfying, yet unusually tender.

A flavorful way to make your meat go further with flour enriched with two B-vitamins and iron.

PILLSBURY'S LAMB AND VEGETABLE PIE

Serves 6, economically

TEMPERATURE: 425° F. TIME: About 20 minutes

- 1½ lbs. stewing lamb (about 2 cups cubed, lean meat)
- 1 quart water
- 1 teaspoon salt
- 1 or 2 bay leaves
- Few peppercorns
- 1 cup sliced onions
- ½ cup chopped celery
- 1½ cups cubed rutabagas or turnips
- 1½ cups sliced carrots
- 1 cup cut string beans or cubed parsnips
- 5 tablespoons PILLSBURY'S BEST Enriched Flour
- 3 tablespoons fat
- 2 teaspoons salt
- ⅛ teaspoon pepper
- ½ teaspoon thyme
- 1 cup tomatoes, juice and pulp
- 1 cup lamb stock

1. Remove and discard fat, bone, and tough skin from meat. Place in heavy kettle or deep cooker. Add water, salt, bay leaves, and peppercorns. Cover and allow to simmer slowly until meat is partially tender (about 1 hour). Remove bay leaves and peppercorns. 2. Add vegetables. Cook slowly until vegetables are partially tender. Add water if needed. 3. Drain thoroughly, reserving liquids for gravy. Turn meat and vegetables into large casserole. 4. Combine flour, fat, and seasonings to make smooth paste. 5. Add tomatoes and 1 cup reserved lamb stock gradually; mix well. Cook over direct heat, stir constantly until thick and smooth. Pour over vegetable-meat mixture. 6. Top with the following:

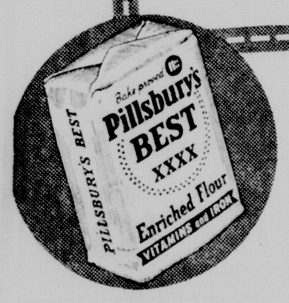
The Perfect Pillsbury Biscuit Topping

- 2 cups sifted PILLSBURY'S BEST Enriched Flour
- 1½ teaspoons baking powder (or 1 teaspoon double-acting)
- ½ teaspoon salt
- 2 tablespoons shortening
- 6 tablespoons milk, about

You'll notice this: The Pillsbury biscuit topping is unusually tender! The full-bodied, sturdy elasticity of Pillsbury's Best comes from certain types of fine wheat, the delicate tenderness from others. By balancing one type of wheat with another, we get what we call the "tender blend" of wheats in Pillsbury's Best. You can get that added tenderness in everything you bake—simply by using Pillsbury's Best, the wholesome, dependable, all-purpose flour.

1. Sift flour once; measure. Add baking powder and salt; sift again. 2. Cut in shortening to about the size of small peas. 3. Add milk; mix only until all flour is dampened. Knead lightly for a few seconds to smooth dough. 4. Pat or roll out on floured board to about ⅛-inch thickness. Cut into 24 2-inch biscuits. 5. Place six rows of 4 biscuits each (edges overlapping) in spokelike formation around casserole. Brush with milk. 6. Bake in hot oven until done.

Note: Beef, veal, or pork may be substituted for the lamb. Omit thyme. If using canned string beans add a few minutes before removing the mixture from heat.



Pillsbury's Best *Enriched Flour*

U.S. NEEDS US STRONG — EAT NUTRITIONAL FOOD

What about proteins? When meat is rationed, enriched white flour can help you plan well-balanced meals with adequate protein content. The protein content of baked foods made with milk and enriched flour is very, very good. Stretch your meat by baking meat pies, biscuit-topped casserole dishes, etc. Serve plenty of baked foods and breads to supplement the nutritive value of other foods. White flour, enriched as your government recommends, is plentiful.

Lawrence County Farms And Farmers

By H. R. McCulloch, County Agent

FARM BUTCHERING CALLS FOR ATTENTION TO DETAILS

Meat ordinarily is the main dish around which the housewife, the chef, and maker of the bill of fare build the dinner.

The farmer is in an admirable position in that he can raise, slaughter and dress his own meat. And this is the season when slaughtering and dressing are common sights on Lawrence County farms. Many farmers sell part of the carcasses and must give careful attention to the desires of their customers.

A better supply of meat helps improve the bill of fare and a well supplied table does much to brighten the life on the farm. To supply his family and perhaps his neighbors with meat of high quality, a farmer must be able to select the right animal for slaughter and know how to handle the animal chosen.

Health, condition, type, and age usually are given most consideration in the selection of an animal for slaughter. The care of the animal for 18 to 24 hours before butchering also is important. The animal should have water to drink, but no feed, giving it an opportunity to empty the stomach and intestines. This makes it easier for the butcher to remove internal organs. An animal that has not been fed will bleed better. Meat usually will cure or keep better if the blood vessels are free from food products and blood.

Handling and curing the meat after slaughter are extremely important if meat of the best quality is to be obtained. Anyone interested in further information on farm butchering should get in contact with the Agricultural Extension Office, No. 206 Post Office Building, New Castle.

INCREASE IN POTATO PLANTING TAKES SEED

To meet anticipated food needs, Pennsylvania farmers have been requested to increase potato acreage by 26 per cent over 1942. The increase will amount to about 44,000 acres.

Harvested yields are largely dependent on the virus freedom of the seed planted. Certified seed and seed one year removed from certification can be depended on as being relatively virus free.

The increased acreage means in seed needs that at 20 bushels an acre for planting, the 44,000 acres will require 880,000 bushels of good seed to insure high yields from the increased acreage. The supply of certified seed is much too small to provide for this increase in acreage.

Obviously, growers must get some of their seed from other sources. Seed one year removed from certification is still fairly plentiful, but stocks are being rapidly depleted for table use. Growers who are planning to increase their acreages should secure this good seed before it is too late.

POULTRY MANURE WILL AID NITROGEN SUPPLY

One of the by-products of the poultry industry has acquired a new value in the present wartime fertilizer situation. Recent tests conducted by J. W. White, soils technologist of the Pennsylvania State College, indicate that poultry manure has a cash replacement value of at least $5 a ton if it is properly handled.

Poultry manure is relatively high in nitrogen, and nitrates are strictly rationed by the War Production Board. Half of the nitrogen contained may easily be lost; however, if poultry manure is allowed to heat in piles or pits. If droppings are not immediately spread on fields or in orchards, they should be carefully mixed with straw or floor litter and spread out under cover so that the whole pile will dry quickly. The most practical way to conserve poultry manure appears to be to allow it to accumulate and dry in the floor litter. Approximately two-thirds of the manure produced by hens is dropped in the litter. Scratch pens may be cleaned infrequently.

There is an average of 1.63 per cent of nitrogen in fresh hen manue containing 73 per cent water. The nitrogen content on a dry basis, therefore, is much higher. Victory garden fertilizer (3-8-7) may be prepared by adding 35 pounds of 20 per cent superphosphate and 11 pounds of 60 per cent muriate of potash to 54 pounds of dried poultry manure.

Formerly much poultry manure has been wasted in Pennsylvania. In a survey of conditions, Professor White found that some poultrymen give it away, some have it hauled away and dumped in out-of-the-way places to spoil and some sell it. When sold, prices range from $1 to $5 per load, but in most cases it is disposed of for much less than its true value.

A million and a quarter tons of poultry manure are produced in this state annually, he estimates, containing more than 40 million pounds of nitrogen. Those poultrymen who spread manure on land used to grow crops were uniformly prosperous, he noted. Some of them are master farmers.

4-H BOYS AND GIRLS TO SHARE IN THE WAR EFFORT

February 6 to 14, National 4-H Mobilization Week, brings to all 4-H Club members a challenge to put over a program in 1943 that will be unequalled in 4-H history. Their projects will stress larger gardens and food and clothing conservation as this great army of 1½ million young folks make their contribution to national production goals.

President Roosevelt in a recent message to these 4-H girls and boys said, "We have faith in your ability to render a great service in this way. We know that you, like your brothers and sisters in the Service, have the spirit and perseverance that will bring Victory in the fight for human freedom and a world at peace."

To "learn by doing" has always been the 4-H way. This year the same 4-H principles will apply except that members will "learn by doing more."

Last year in Lawrence County there were 242 boys and girls enrolled, according to extension workers, Miss Anna Marie Quinn and H. R. McCulloch.

The 1943 program will stress the projects which contribute to the war effort. Whenever possible club members will be encouraged to reach Victory goals which are suggested above regular requirements.

The Services for Victory which 4-H young people can do will be varied and the guidance of leaders and parents will be important. The desire of club members to share in the war effort will be met with more work on the home and farm front. At regular club meetings they will continue to follow principles for the democratic way of living

The Agricultural Club members concentrated on livestock and poultry production, producing about 25,000 pounds of meat. Other club members produced vegetables and honey.

The nome Economics club members centered their interests around conservation of materials in the home. Girls were enrolled in breakfast clubs, Lunch Box clubs, dinner clubs, also wardrobe clubs, and school dress clubs.

Any rural boy or girl between the ages of 10 and 21 who is interested in becoming a member of the 4-H clubs of Lawrence County should write or phone the Agricultural Extension Office, No. 206 Post Office Bldg., New Castle.

PLAN TO GROW A GARDEN TO FILL 1943 FOOD NEED

Vegetable production and preservation should be planned now for the family needs. A well-managed garden is essential for every family and others that have the space. With good soil and the ability to grow vegetables any family can have better food at less cost from a productive garden.

Essential crops include several plantings of green leafy and yellow vegetables, and a sufficient amount of tomatoes to use fresh and canned. In every garden, snap beans, broccoli beets, chard, cabbage, carrots endive, leaf lettuce, onions, yellow turnips, kale, parsley, summer squash, tomatoes, and many other vegetables can be grown. In large gardens there is a place for sweet corn, early and late potatoes, and peas.

Plant food materials must be supplied to make a garden productive Manure may be applied during the winter. Complete fertilizer (3-8-7) may be applied broadcast before spading or plowing at the date of 20 pounds to 1,000 square feet. Additional small amounts may be applied alongside the rows of beans sweet corn, and other plants but never in contact with the seed or plants.

Remember that an early start means a longer harvest season and therefore a larger quantity to eat.

HEALTHY PULLET PROGRAM REDUCES POULTRY LOSSES

Over a period of years the "Grow Healthy Pullet" program has helped to keep rearing flock losses by death well below 10 per cent.

The use of the sound practices in the program has made it possible for poultrymen to brood successfully at any season of the year. They have learned how to meet the varying conditions of housing, temperature, feeding, and environment that affect chicks started in January June, or October.

The round-the-calendar brooding has resulted in greater use of brooding equipment, better distribution of the labor load, closer culling laying houses kept filled more eagerly to capacity, and greater efficiency in the production of both eggs and meat.

In the program are six so-called steps: well-bred chicks from healthy flocks, capable of high production; clean, easily ventilated brooder houses and ample equipment; several inches of clean, dry litter evenly distributed over the floor stirred frequently to keep it loose and light; feed and water in ample quantity and provided in a sanitary manner; clean management to prevent spread of infection to young stock; and clean ground covered with dense, nutritious grass and legumes.

However, the real keystone of successful brooding is the poultryman himself. How well he handles the various parts of the program will be reflected in the quality of the stock reared

ADMINISTRATION IS STANDING FIRM FOR HUGE ARMED FORCE

(International News Service)

WASHINGTON, Feb. 12.—The administration shows no sign of retreat in the plans for total armed forces of 11,000,000 by the end of this year, Sen. Robert Reynolds (D) N. C., chairman of the Senate Military Affairs committee, said today.

"If anything there are signs of the War department becoming more insistent upon carrying out its program," said Reynolds.

Meantime, a Senate Appropriations subcommittee, which has been investigating proposals to limit size of the army, tentatively planned to make a report on the question next week.

VETERANS CONDUCT TRI-COUNTY MEET

Veterans of Foreign Wars Post 315, held a tri-country business and auxiliary meeting at their post in East Washington street which was followed by a delicious lunch. Delegates were present from Butler, Mercer and Lawrence counties. Present were two members from opposite points, Technicol Sergeant Gerald Norris from the Panama Canal zone and Staff Sergeant Edward D. Fritz, Jr., from Alaska. Norris' home address is East street and Fritz', Fairmont avenue.

The puggree band, frequently seen on men's straw hats, originated in the swathes of cotton which British officers in India used to wind around the crowns of their white helmets.

NEW CLASSES FOR AVIATION CADETS

Young men between 17 and 26 inclusive who are interested in the Army Aviation Cadets may enroll in the new classes of the Neshannock Post, Veterans of Foreign Wars, just now, according to an announcement today by Earl Cummings, chairman of the class organization for the VFW.

Any young man interested can get full details of the classes in the headquarters of the post at 126 East Washington street, at 8 o'clock on Monday, Tuesday or Friday night of any week.

United States steel industry employment in 1942 rose 40 per cent above the pre-war level of 1939.

Victory Campaign For Sunday Schools Planned At Meeting

Sabbath School Association Also Plans Leadership Training School

Executive committee meeting of the Lawrence County Sabbath School Association was held at the First Baptist church on Thursday evening, the chief matter for discussion being the coming Victory Pre-Easter Increase Campaign which starts March 7.

Harry Gibson of the First Presbyterian Sunday school of this city outlined the plan used successfully last year and which the group plans to use again this year. The entire Sunday school was divided into two groups, the "Blues" and the "Golds," each group wearing a distinguishing button. Another button was awarded every Sunday school member present every Sunday during the campaign. Those at Sunday school remaining for church were given cards to put in the collection plate.

It was announced that plans are under way for a Leadership Training School to start Monday evening, March 15, and continue for the succeeding five Monday nights. There will be Bible contest courses, young people's courses, children's division course and perhaps a music course. The place of meeting will be the First Baptist church and a list of instructors will be announced later. International credit will be given for these courses.

It was announced that Rev. Homer K. Miller, pastor of the Volant and Rich Hill Presbyterian churches, will speak on the Ministerial Association radio program at 1 p. m. Sunday. His message, especially for Sunday school teachers and workers, will be on the subject, "God's 'E' Award for Faithful Service." The meeting closed with prayer by Mrs. Winifred James.

RATIONING TO BE EXPLAINED

Meeting At High School Feb. 18 To Explain Point Rationing And Ration Banking

Point rationing and ration banking two subjects that are important to retail and wholesale grocers and all other food distributors and their employes will be explained Thursday evening, February 18 in the senior high school when a representative of the Office of Price Administration will be present.

The new ration books which will be in effect in March will be under the "point" system. Just now there are few dealers, either retail or wholesale, who are familiar with the point system and the ration banking system is even more unknown.

The meeting on Tuesday night February 16, will be under the auspices of the Food Distribution Committee and is for only retail and wholesale dealers and their employes. The meeting will open at eight o'clock.

SCHOOL CHILDREN HAVE 72 PER CENT OF BOMBER

(International News Service)

PITTSBURGH, Feb. 12.—Pittsburgh's public school children were within striking distance of their goal of $300,000 for a bomber. Since January 1 the city's 90,000 school children have collected $216,050, or 72 per cent of the amount needed. The bomber will be christened "Pittsburgh Public Schools" when it rolls from the factory ready for duty against the Axis nations.

DIRECT RELIEF FOR COUNTY DECREASES

Direct relief payments in Lawrence county continue to decrease, according to State Treasurer G. Harold Wagner's report. This week's total payments showed a drop of $30 over last week's, or $1,065.

Old age assistance for the month of January amounted to $24,307 for the county, aid to dependent children was $11,160, and pensions for the blind, $4,406. Compared with December, 1942, payments, these amounts remain at substantially the same level, with aid to dependent children slightly higher in January, and the other two slightly lower.

RECOVER BODIES OF SIX DROWNED

(International News Service)

PORTLAND, Ore., Feb. 12.—With six bodies already recovered from the flood-swollen waters of the Columbia river, divers and deputy sheriffs today searched for four other persons believed drowned when the tugboat May capsized while carrying a load of shipyard workers from the Oregon shore to Vancouver, Wash.

Of the estimated 19 aboard, nine others, including four women, were rescued.

Maybe the young aren't the best fighters. The fellows who sound most eager for battle are the ones too old for combat.

BIDS CONSIDERED IN REMOVAL OF BRIDGES

(International News Service)

HARRISBURG, Feb. 12.—The state department of highways today considered bids submitted yesterday for the removal of seven bridges located on the abandoned right-of-way of the West Penn Railways Co., adjacent to traffic route 993, between Trafford and Larimer in North Huntingdon township, Westmoreland county.

The unofficial low bidder was the B. B. Construction Co. of Philipsburg with a bid of $27,664.

Shenango-Wampum, 'Greyhounds'-Brook Will Battle Tonight

Shenango And East Brook Host Clubs—Tournament News Buoys Spirits Of Contending Teams; Bessemer On Idle List, Awaits New Wilmington Game Tuesday—Shenango Out To Halt Craine And Company.

Inspired by news that the WPIAL tournament will be held despite World War II, Section 21 title contenders flip the spheroid with additional gusto tonight.

Only two of the three clubs in the running—New Wilmington and Wampum—perform. Bessemer is taking full advantage of a deserved rest.

"Greyhounds" At Brook

The unwhipped New Wilmington "Greyhounds," winners 15 consecutive times, nine of the triumphs coming in sectional play, journeying to battle East Brook high.

Second place Wampum skips off to East New Castle to face a constantly improving Shenango Township machine.

New Wilmington pummeled the Brookers recently under a 43-22 onslaught. While the Brook quint manages to flash its most effective brand of basketball before the town gallery, New Wilmington is an odds-on favorite to nab its 10th consecutive league win.

Jamison and Kennedy rate as main threats for the host club while the college towners are studded with classy performers. Most improved ball player on the Eagleson squad is Green. In the past three clashes, the rugged Green operating from a forward post, has played sensationally.

The "Indians" from the cement town face a stiffer assignment due to the Shenango's improvement. Coach Nahas' proteges put up a bruising setto before crumbling before New Wilmington's sizzling offense.

Will Watch Craine

Adamczyk, who checked Kenny Cathcart for the first time in the tall boy's career, tries to stop Coy "Springy" Craine, Wampum pivot man who holds the WPIAL scoring record. The colored ace has 379 markers for the season and 1,091 for his schoolboy term.

With Sawor, Scala, the Bennetts Guy and Frank, and Marich apparently in top form, Wampum has a big edge over the East New Castle shooters.

In a daylight tussle, Union and Mt. Jackson, counted out of the race weeks ago, are firing on Union floor.

With the big game of the year coming up next Tuesday when they line up against New Wilmington Bessemer's powerhouse is sharpening its defense and offense.

The "Cementers," represented by the same club which walked off with the sectional banner last year seem to have hit their stride again and are conceded a chance of toppling the towering Eaglesonmen.

Shenango Grads Top Ex-Bessemer Stars

Shenango township's ex-flipping agents gained a 41-33 decision over Bessemer's alumni in a fast clash.

The Pitzer boys, Francis and Bob, led the attack for the winners. Johnson was the ace for the "Cementers."

The lineup:

Shenango	Fg.	F.	Ttl.
B. Pitzer, f	4	0	8
F. Pitzer, f	11	0	22
Tuscano, c	2	2	6
Fredericks, g	1	0	2

He was rushed to Henry Ford hospital where his condition was said to be serious.

Thorpe lives in suburban Romulus with his four sons.

Nine GC Athletes Depart For Army

Three Grover Basketballers On List; Half Dozen Gridders Go

(Special To The News)

GROVE CITY, Feb. 12.—Among 47 enlisted Army Reservists who will leave Grove City College in a body today, to report at Fort Meade, Maryland, will be three members of the current basketball squad, with all three managers, and six boys who performed for the Grovers on the gridiron last fall.

The basketball squad is hit particularly by the induction of George Steck of Oil City, a junior who has played regularly since his freshman year, and who is one of the most important cogs in the present machine. Bill Easton of Sharon, another junior of similar experience did not rejoin the squad at the start of the second semester, anticipating the Army call. The third player is Carl Keefer, substitute center. Manager Scott Hutchison, who is also editor of the college weekly newspaper, and his two assistants Carl Way and James Cappa, will be in the group.

The football squad will be represented by Lawrence Lyman, Don Machesney, William Nickeson, Edward Olmes, Joseph Poppleton and Jack Warren.

'Canes Determined To Leave Cellar Berth; Fray To Start At 8

PRELIM TIP-OFF CEREMONY AT 7

Determined to quit the Section 3 cellar berth, New Castle high's cage agents, shoot toward that mark tonight at 8 when they entertain a highly efficient Beaver Falls high combination on George Washington floor.

Beside endeavoring to climb out of the dark precinct, the 'Canes seek to avenge an easy 45-20 triumph the Tigers gained recently in the valley town.

While the 'Canes were eliminated from the sectional races long ago, Beaver Falls still entertains nopes of gaining admittance to the coming tourney by garnering the loop coronet.

Win Four Times

Thus far, the Falls crews has won four and lost two, being deadlocked with Aliquippa for second place honors. Ambridge tops the circuit with six straight wins and an immaculate mark on the lost side. New Castle has copped one out of six games.

In view of the rivalry, a large gallery is expected to witness what may develop into one of the most exciting clashes of the season.

A preliminary is billed for 7:00 o'clock.

In other Section 3 pairings, Ellwood City entertains Ambridge while Aliquippa blasts at New Brighton.

HERE AND THERE IN SPORTS LAND

Glenn Cunningham, Gregg Rice and Paavo Nurmi were good runners, but Lon Myers was the runner to go a mile in 3:31 4-5. How did he do it? The A. P. reports he ran a mile in four starts with an average rest of 13 minutes and 40 seconds between laps. Even so, he ran four laps of 440 yards with an average of 52.95 seconds a lap. In tribute to this feat the San Francisco Olympic club on February 20 will feature the Lou Myers memorial mile. Cliff Bourland of Southern California, who ran the quarter in 46.7; John Fulton, Stanford 880-yard star, and Bob Madrid of Resno State, the best miler on the west coast, will try to beat the record, each going four laps with the same rest that Myers took.

Although the Chi-Bears were defeated by the Washington Redskins for the National Pro League title, they hung onto their honors in rushing, although 275 yards short of their 1941 quota.

Sonny Horne is still winning fights in New York, his last victory having been over Ernie Robinson, l.. is the chap who was brought out by Matt MacGowan of Niles, battled as an amateur here, then went to New York for the "dough-ray-me".

ST. MARY'S PLAYS TONIGHT AT 8:30

Already boasting of victories over the St. George and Polish Falcon Big Five, the newly organized St. Mary's "Greyhounds" display their technique against the Forest Cubs tonight at 8:30, on St. Mary's floor corner North and Beaver streets.

Grade school teams will clash in a preliminary starting at 7:30.

SPORTS WORLD RAMBLINGS

Short tunes from a small sports trumpet:

With the WPIAL A and B dribbling tournaments 14 days away, only 11 clubs sport undefeated sectional marks. One of 'em is New Wilmington's "Greyhounds", among the very few unwhipped scholastic clubs in the entire loop.

Westminster's encore with Pitt tomorrow night may develop into one of the wildest clashes of the season, in view of the recent aftermath. "Doc" Carlson told me late Saturday night "It'll be different in Pittsburgh. They won't ride Malarkey." He smiled when he said it.

Dick Dunkel, who stretches the forecast business a point by endeavoring to call the turn on cage frays, has Pitt favored Westminster by a 64.6 to 50.9 rating, a difference of 13.7 points. I'd like to nibble a little of that.

To inquiring phone caller:—Sorry, you hung up before I understood your query. If I interpreted your question correctly the answer should be: Joe Louis was NOT champion the night Rati-Nazi Max Schmeling scored a kayo in the 12th chukker.

While in Hawaii on Red Cross duty, Joe Cronin did a bit of canvassing for baseball and returned home loaded with requests from soldiers that the national pastime be continued. The diamond guys can thank the khaki wearers for saving the game. Similar requests, coming from all theatres, have kept the game alive so far.

Wise Col. Winn showed some of the experts that he knew what he was talking about when he said several weeks ago that "the Derby will go on as usual."...The Navy-Notre Dame '43 grid clash, originally carded for South Bend, has been shifted to Cleveland. Could this be an indication that collegiate football won't be hit as hard as some believe?

Louis Will Act In Army Movies

(International News Service)

LOS ANGELES, Feb. 12.—His arrival and departure will be kept a strict military secret, but Los Angeles and Hollywood today looked forward to greeting Sergt. Joe Louis Barrow when he hits town to cavort in the film version of "This Is The Army."

The heavyweight champion will be "on military assignment" and will not be permitted to make any public appearances.

GRAHAM URGES GAS ZONE CHANGE

Congressman Seeks Change For District From National Zone 1 To Zone 2

Congressman Louis E. Graham, of the Lawrence-Beaver-Butler district, in attendance at the conference in Washington Thursday, urged that the request of this area of western Pennsylvania for changes in the drastic gasoline regulations now prevailing be given favorable attention.

Congressman Graham is thoroughly in accord with the plan to remove the 26th congressional district from national gasoline rationing district zone 1 to zone 2, he says.

Citing the reasons he favors the move, he said:

"First, since we produce so much gasoline in our district we certainly are entitled to the same consideration that has been shown the states of West Virginia and Ohio.

Next, the state of Pennsylvania is losing a great deal of revenue which is now going into the coffers of the state of Ohio due to the fact that many people go across the line and buy their gasoline.

Then too, I think, due to our geographical location, bordering on Ohio, north of the Ohio river, and West Virginia, south of the Ohio river, it is really one contiguous territory so that all in all we have been unjustly discriminated against and I intend to do everything in my power to help the citizens of our district."

INSIDE WINNERS

Of the 1,428 races run at the New York tracks last year, 193 winners came from the inside positions, while 184 were on the extreme outside, the State Racing Commission reports.

FOUR PITTSBURGH FIRMS INVOLVED IN FTC CHARGES

(International News Service)

PITTSBURGH, Feb. 12—The Federal Trade Commission's complaint which charged 39 corporations and the American Refractories Institute of Pittsburgh with conspiracy in the sale of bricks, named at least four Pittsburgh district firms.

They were the Harbison-Walker Refractories company, which has its main plants in the Clearfield area; the Union Mining company, and the McClain Fire Brick company, all of Pittsburgh, and the Climax Fire Brick company of Clarion county.

The FTC charged the corporations conspired to fix prices and eliminate competition in the sale of bricks and other refractory products.

Health Talks

By DR. W. A. WOMER
City Health Superintendent

EXAMINATION IMPORTANT

Automobile owners and state officials have decided that frequent inspection is a good thing. It helps to keep the car in good safe condition.

Everybody ought to have the once over occasionally. But how many do?

For many years doctors and health departments have been urging people to have regular examination, but very few do it.

So many conditions and diseases are so gradual in their onset that they reach a serious stage before they are even suspected.

Industrial plants have decided that it pays to give applicants and employees an examination by a doctor.

Schools and colleges have found that pupils and students need these tests.

It seems as though we Americans never do what we should till we make ourselves do it.

When a good thing is introduced, a few progressive people do it. The rest either oppose it or ignore it. In the course of time a lot of people find out it is good. Then a law is passed and everybody does it. There are usually enough kickers to keep the officials on the alert.

FROM ME TO YOU

By MESEEALL

This has been a bad winter for the ashing crews of the city. Snow and ice have been here often . . . making it necessary to work ashing crews late at night and very early in the mornings . . . Councilman James Gibson is in charge of this division and we think that again we should say that he has been doing one swell job . . . all of the credit can't go to him naturally . . . the men who make up these crews deserve a lot of thanks . . . the police for their co-operation in reporting icy and dangerous streets and hills . . . all together they have proven themselves very worthwhile this season . . . We hope they continue until warm weather really sets in.

* * *

Things are going to begin to happen again . . . there has been somewhat of a slowing down of civic activities. Committees and men interested in civic affairs have been working over problems . . . trying to limit the appeal to their man kind to as few as possible. Monday night another large U. S. War Bond drive will be started in the organization stages when the Townships will gather . . . everyone pulling together can make a success . . . The American Red Cross will launch their membership campaign in March . . . Your own personal business and war activities will keep you busy when public campaigns need attended.

* * *

Don't forget you dancers . . . there will be a Valentine's Day Dance at The Cathedral Saturday night . . . two good bands will furnish the music. This affair is sponsored by the Order of the Builders. All dancers are invited . . . dress informal.

* * *

You all . . . housewives . . . are saving grease. Fine, the government needs that grease but it has been suggested by the butchers that it would be much better if you would store that grease in tin cans or paper containers instead of glass. The firms who pick up the grease for government use can't handle glass jars successfully . . . Your co-operation will be greatly appreciated.

LEAVES GRANTED TWO TEACHERS

Many Matters Acted Upon By Ellwood School Board Thursday Night

ELLWOOD CITY, Feb. 12.—Sabbatical leaves of absence for the purpose of health restoration were granted to Miss Josephine Hartzell, principal of the Northside school, and Miss Blanche M. Porter, teacher in the Hartman school, by the Ellwood School District Board of Education at the meeting last night.

Miss Hartzell, who has been ill with a heart ailment since last October, has taught 19 consecutive years, and Miss Porter has taught for sixteen consecutive years. They were granted one semester of absence.

The resignation of Miss Mildred Bollinger, assistant school nurse, who has entered the Army Nursing Corps, was accepted and approval given for the election of her twin sister, Miss Martha Bollinger, to her place.

Jack Stoughton, a substitute teacher, has resigned to enter war work, having accepted an assignment as a naval inspector.

A short-term tax-anticipation loan to meet any deficit that may occur at the end of the school year was approved should the need arise. No capital outlay is anticipated in the next couple of years, and it is believed that the district will be in an excellent financial condition as soon as the present bonded indebtedness is paid. To meet the bonded indebtedness and current expenses, a loan, or bond issue, or increase in millage, may be necessary for a year or two. Pending state legislation may aid the situation.

Re-consideration of the purchase of the Bell Memorial church foundation in Fourth ward was given. A number of years ago, the board contemplated buying the structure for the future construction of a vocational school. The government has notified the church board that they must either dispose of the building or have it taken over for school or other municipal purposes. The structure contains more than 60 tons of steel and it is needed for the war effort. The board agreed not to buy the foundation.

It was pointed out that the school district could not secure any equipment for the duration. W. L. Dean stressed that it wouldn't be patriotic to buy the structure and leave it stand there, just because they could as a school district. About $45,000 was invested in the structure and the church was willing to sell it to the board for $5,000, which included the three lots. They will get about $2,000 for the steel, it was said.

Records of radio code instruction will be bought and used in the class room programs to aid future Army Air Corps recruits. Soldiers home on furlough state that learning the code is the most difficult part of their training. The records will cost about thirty dollars.

Large type books have been bought for the school pupils with poor eyesight, Superintendent Bell reported.

While the school is not in use this year, insurance will be continued on the Circle school boilers. It was reported that the recent fire loss at the Ewing Park school was covered by insurance.

Teachers will handle the registration for ration book two. Registration here will be on Wednesday, Thursday and Friday afternoons and evenings. All persons on the south side of Connoquenessing creek will register in the high school gym, fourth ward residents in the Northside school; and Ewing Park residents at the Ewing Park school. Mr. Bell said it would not be necessary to dispense with school all week because the registration could be handled in three afternoons and evening. He was given authority to plan the registration as he saw fit.

Eight-five persons have registered for the Americanization classes. They are held on Mondays and Thursdays from 4 to 5:30 and from 7 to 8:30 with Mrs. Florence Young as the teacher. The citizenship court requires 20 hours of training before final examinations for citizenship papers can be taken.

Total tax collections for January amounted to $6,368 with $2,649 being for 1942 per capita; and $2,440 being for 1942 property. The balance sheet for December 31, 1942, shows the total assets of the district including the sites, buildings and equipments to be $1,173,938. Outstanding in liabilities is $187,000 for bonds payable with the surplus being listed at $986,109.

Representatives Of Industries At Red Cross Discussion

Review Of Work, Plans For Coming Drive Heard At Last Night's Meeting

ELLWOOD CITY, Feb. 12.—The W. T. Grant company today jumped the gun on the Red Cross war fund campaign for the business district when that store sent in a $50.00 cotribution toward the $20,000 quota set for Ellwood City. Contributions from the employees for that store will be turned in during the regular campaign period.

Representatives from the various industries in the community met last night in the Municipal building and heard W. L. Dean, local Red Cross branch, chairman, explain the co-operation between the Lawrence county chapter and the local branch, along with the functions and activities of the local Red Cross. Mr. Dean stated that Mrs. L. E. Springer, production and volunteer service chairman, and her staff of loyal patriotic women had turned in 21,000 woman hours last year in sewing, knitting and the making of surgical dressings for the boys at the front and in our camps and naval bases. Since September 1, 2,400 garments have been made, along with 260 knitted garments.

Mrs. Sue Pitzer, chairman of the surgical dressings, and her efficient staff of some 75 women have made thousands of surgical dressings, and the demand is so heavy for these dressings that a special crew of women had to be called out yesterday afternoon to handle a rush demand for the dressings to be sent to our fighting fronts. The surgical dressing corps of women are making a special mask for nurses and doctors use that takes 20 minute to make and calls for the highest type of workmanship.

Work on War Fronts

R. J. Schill, an executive member of the Red Cross here, explained in detail that some 528 doctors and 1,791 nurses are on every fighting front to care for and give medical attention to our boys. Over a million pints of blood plasma were used last year by the Red Cross to save the lives of our boys on all the fighting fronts. Seventy-six Red Cross clubs in foreign lands are giving the boys food, lodging and recreation along with information service, procuring of theater tickets and sight-seeing tours.

In the home service work, some 1,500 Red Cross field directors are aiding the boys in getting home to their families in case of emergencies, giving financial aid to the boys and checking allotments.

The Red Cross is the only agency whereby a boy missing in action can be checked by his family, or in cases of injury. Last year 130,000 persons in 180 disasters in 44 states were taken care of with clothes, food, shelter and medical attention by the Red Cross.

A. E. Milbrath, campaign chairman, outlined plans of the drive, which is to start a week from today, Februray 19. Mr. Milbrath made it emphatic that the big Allied push is not far off and that every working person must dig down in his pocket and help put the $20,000 goal across here, so that our boys fighting at many fronts will receive the proper medical care.

HIGH HONORS ARE GIVEN TO SCOUTS

Two Awards At Notable Banquet At Shelby Club House Last Night

ELLWOOD CITY, Feb. 12.—The highest honor in Scouting, a life-saving medal, was presented to the parents of Charles Follette, Jr. and to Jack Lindgrin as a surprise feature of the Ellwood district Boy Scout banquet held last night at the Shelby club house.

The medals were presented for the noble part the scouts played in saving the lives of others in the tragic gasoline explosion which occurred last fall at an Ellwood football game. Follette was fatally burned and Lindgrin received major burns that confined him to the hospital for several weeks.

Mrs. John Lindgrin pinned the medal on her son, and he in turn pinned a similar medal on his mother, who expressed her appreciation to everyone for their many kindnesses during his illness.

Certificates, awarded by the National Court of Honor, were also presented, and letters of congratulations from James E. West, chief scout executive, were presented to Robert Bisceglia and Calvin Wm Farley, who also played a part in the heroic service. Farley is now in the Marine Corps and his scoutmaster will send the award on to him.

At the conclusion of the presentations by J. J. Finnessy, county scout executive, a minute of silence was observed in memory of Charles Follette, Jr.

Another outstanding program feature was a typical Court of Honor conducted by the chairman, Dr. A. M. Stevenson, assisted by the associate chairman, Rev. J. Greer Bingham; and chairman of the Board of Review, Joseph McCandless.

The coveted Eagle award was presented to three scouts, Paul Bingham, DuWayne Goodwin and Kenneth Fox, Jr., who is the youngest Eagle scout in the district. A guard of honor escorted the new Eagle scouts and their parents to the Court. Local Eagle scouts serving as the Honor Guard were: Merle Shilling, Edward Slevin, William Roys Norbert Rossman, Don Howells Charles Follette, James Simpson Harold Burry, Elmer Barkay, John Luca and William Hockenberry.

Charles Carbeau, former president of the Lawrence County Council, introduced his fellow Silver Beaver scouts, Dr. G. S. Bennett John Pearson, Nelson Runyan, Erle B. Yahn and Edward Hawke.

Nelson Runyan, president of the Ellwood District, was the toastmaster and presented the various guests. Among them being, Dr. G. S. Bennett, president of the County Council. Dr. Bennett said that there was more interest displayed in Ellwood in Scouting than in any other part of the County. He lauded the men who give their time to the work and said that the need today for builders of men was great and that no more worthy job could be undertaken. The high praise of Scouting that comes from the Army and Navy was stressed.

Presented by J. Ellis Bell, Al Harvey, of Aliquippa, chief of messenger Service, Civilian Defense Beaver County, was the principal speaker. With twenty years of experience in Scouting, he pointed out the part that Scoutdom is taking on the home front in this total war.

The ceremonies opened with the presentation of colors with the color guard being Ray Conner, Jr., Arthur Murphy, Merle Schilling and Anthony O'Tousa. Ben Carbeau led the flag salute and Rev. F. H. Daubenspeck offered the invocation Singing was led by Lawrence Flinner with Harry Atkinson as accompanist. The closing scout benediction was given by Anthony Savicky.

It was the largest attended Scout dinner in a number of years with more than 350 being present. Included in the group were scouts their parents, troop committeemen scout leaders, members of the Kiwanis and Rotary clubs who dispensed with their weekly meetings to join the event, and other guests.

Women of the Trinity Lutheran church fulfilled their usual role of serving a delicious, hot braised steak dinner to the large crowd quickly and efficiently. No sign of food shortage was evident in the generous servings.

John H. Hough was general chairman of the event and to him is due much praise for the happy, successful event. He was assisted by Don Howells and Kenneth Blank who handled the ticket arrangements.

NO SUGAR FOR ELMER

U. S. Treasury Department

MRS. BEATRICE DOWLING, 23, above, red-haired bride of four months, was charged in Rochester, Ind., with the shotgun killing of Robert Hoffman. The sheriff's office said Mrs. Dowling aimed and fired at her husband, Arvil, 27, because he would not quit a poker game to return home with her—but hit and killed Hoffman instead.

Section Basketball Leaders To Play Ellwood Tonight

ELLWOOD CITY, Feb. 12.—Basketball fans will have a chance to see the sectional leaders, Ambridge high school, tonight when they come to Lincoln gym to meet the Ellwood high team.

With only one defeat to their record, the Ambridge team will win the sectional championship. They are heavy favorites over Coach Thurman Croft's, Ellwood high team which hasn't done so well in sectional games. Croft still thinks that the Ellwood players have the stuff and is disappointed that they haven't done better this year.

The new line-up brings Robuck and Vitkotvich to the forward positions; Cartwright remains at center; and Greco and Hayden get the guard berths.

The Ellwood Reserves will play the Ambridge Reserves in a preliminary game to begin about 7:30. Joe Rider and Sam Richards will be the officials.

Next Tuesday, Ellwood goes to New Brighton and on Friday to Aliquippa, and will end the season the next Tuesday at home with New Castle.
